

Simplicity, predictability — and growth in up *and* down markets

1 Year S&P 500 Dual Trigger account available with a Lincoln fixed indexed annuity

How the Dual Trigger account works

-  Tracks the performance of the S&P 500 Index over a one-year indexed term.
-  Credits the dual trigger rate if the performance is flat or positive at the end of the indexed term.
-  If the index change is negative by less than the value of the dual trigger rate, the difference is credited.
-  If the index change is negative by the value of the dual trigger rate or more, the account is protected from loss, but no interest is credited.

Source: S&P Dow Jones Indices LLC and Macrotrends LLC. Data is based on beginning of the index year performance for 2015 – 2024. Years shown are 2014 – 2023.

Past performance is no guarantee of future results.

When does 7 equal 9?

Keep your retirement savings moving forward, even if the market is going backward, with this simple strategy. Here's how a 100% allocation to the 1 Year S&P 500 Dual Trigger, assuming a 7% trigger rate, would have performed over the last 10 years.

Year	S&P 500 Index	Dual Trigger return
2014	12.35%	7%
2015	-2.21%	4.79%
2016	12.18%	7%
2017	19.40%	7%
2018	-6.89%	0.11%
2019	29.79%	7%
2020	13.59%	7%
2021	29.61%	7%
2022	-20.27%	0%
2023	24.02%	7%

Benefit from growth in down markets.

Your account (and previous years' growth) is always 100% protected.

Over the last ten years, the Dual Trigger account offered nine years of growth, even though the S&P 500 Index was positive only seven of those years.

Important information:

Lincoln Financial Group® affiliates, their distributors, and their respective employees, representatives, and/or insurance agents do not provide tax, accounting, or legal advice. Please consult an independent professional as to any tax, accounting, or legal statements made herein.

A fixed indexed annuity is intended for retirement or other long-term needs. It is intended for a person who has sufficient cash or other liquid assets for living expenses and other unexpected emergencies, such as medical expenses. A fixed indexed annuity is not a registered security or stock market investment and does not directly participate in any stock or equity investments, or index.

Lincoln fixed indexed annuities (contract form ICC1515-619 and state variations) are issued by The Lincoln National Life Insurance Company, Fort Wayne, IN, and distributed by Lincoln Financial Distributors, Inc., a broker-dealer. **The Lincoln National Life Insurance Company does not solicit business in the state of New York, nor is it authorized to do so. Contractual obligations are subject to the claims-paying ability of The Lincoln National Life Insurance Company.**

This annuity does not participate directly in any stock or equity investment and does not include the purchase of shares of stock or an index. The indexed accounts use an outside market index as a benchmark for determining indexed account earnings. Any dividends paid on the stocks on which the index is based do not increase the annuity earnings. All payments and values provided by the contract, when based on performance of the indexed account, are not guaranteed to be equivalent to the benchmarking index. The composition of the index and the methodology used by the index to calculate its performance are not guaranteed and may be changed at any time by the index provider.

The exact terms of the annuity are contained in the contracts and any attached riders, endorsements and amendments, which will control the issuing company's contractual obligations. For more information about the annuity, please also read the Client Guide, Disclosure Statement and Fact Sheet, or contact your representative.

Income taxes are due upon withdrawal and if withdrawn before age 59½, an additional 10% federal tax may apply. Withdrawals and surrenders may be subject to surrender charges and a Market Value Adjustment.

There is no additional tax-deferral benefit for contracts purchased in an IRA, since they are already afforded tax-deferred status.
