Plan Code: FRDT-005

Product name: *Lincoln Alliance*® program

The purpose of this document is to provide you with important information regarding the Wisconsin Diagnostic Laboratories Retirement Savings Plan and Trust and the plan's designated investment alternatives under the *Lincoln Alliance*® program, including fee and expense information, to help you compare investment options in accordance with Department of Labor (DOL) Regulation section 2550.404a-5 ("404(a) participant fee disclosure").

Information presented throughout this entire document is specific to the plan's designated investment alternatives only under the *Lincoln Alliance* program. Please contact your retirement plan administrator for more information.

If you would like additional information regarding your plan's designated investment alternatives, you may visit the specific website addresses shown throughout this document or you may contact your retirement plan administrator at 414-777-1999 or 400 Woodland Prime, Suite 302, N74 W12501 Leatherwood Court Menomonee Falls, WI 53051. A free paper copy of the information may be obtained by contacting your retirement plan administrator at 414-777-1999 or by calling the Lincoln Customer Contact Center at 800-234-3500.

Every effort has been made to ensure that this disclosure is as thorough and accurate as possible to reflect the legal documents, laws, and regulations that govern the operation of the plan. In the event of any conflict, the terms of the plan document, investment arrangements, applicable laws, and regulations will govern.

General plan information

To direct your designated investment alternatives for the plan:

To enroll in the plan or update your investment elections, meet with a Lincoln retirement consultant onsite, visit www.LincolnFinancial.com, or call the Lincoln Customer Contact Center at 800-234-3500 Monday through Friday, 7:00 a.m. to 7:00 p.m. Central.

You may change your elections at any time; transfers are effective the same business day provided the markets are open and instructions are received before 3:00 p.m. Central.

The *Lincoln Alliance* program may restrict the number of transfers you may make among designated investment alternatives within the product in a given time period. An investment option may apply a redemption fee or restrict certain transfers. However, transactions associated with market timing – such as frequent, large, or short-term transfers among investment options – can affect the underlying funds and their investments. Lincoln therefore reviews the number of transfers that a participant makes within given

periods of time to determine if any transfer attempts to capitalize upon short-term movements in the equity markets (Market Timing Policy). If so, the participant's transfer activity will be subject to further scrutiny. Potential market timing or frequent trading may result in future trading restrictions, up to and including temporary (or permanent) revocation of telephone exchange privileges.

Voting and tender rights associated with mutual fund shares offered under the plan are exercised by the plan sponsor, if applicable.

The designated investment alternatives available in the *Lincoln Alliance* program are those listed in the comparative charts and investment information on the Target Date Portfolios is available at www.lincolnfinancial.com.

In addition to the designated investment alternatives available under your plan, you may invest in a self-directed brokerage account (SDBA) through Schwab.com.

It is important to note that a SDBA is not a designated investment alternative under the plan. The plan sponsor is not responsible for and does not review and evaluate each investment option made available through a SDBA to ensure each investment option is a prudent selection to be made available to plan participants. Therefore, before you invest in an investment fund through a SDBA, you should read the fund's prospectus and carefully consider the particular fund's investment objective, risks, charges, and expenses.

Investments made through a SDBA are subject to commission fees, service fees, transfer fees, and may include quarterly account fees. The Schwab Personal Choice Retirement Account pricing summary is delivered to you upon enrolling in the service and is posted on their participant website at <https://www.schwab.com/resource/pcra-pricing-summary>.

Generally, there is no minimum balance needed to open a SDBA, but certain investments may require a minimum initial investment. In addition, investments in a SDBA may be subject to trading restrictions and limitations. For more information, please contact Schwab at 888-393-7272 or www.schwab.com.

Plan fees and expenses

This section provides an explanation of fees and expenses for general plan administrative services, that may be charged to or deducted from all individual accounts and are not reflected in the total annual operating expenses of any designated investment alternative. For example, the plan may incur general administrative expenses each year to cover services related to the operation of the plan (e.g., legal, accounting, recordkeeping, trustee fees, and retirement plan consulting fees). Where applicable, the plan may charge a portion of these expenses to participant accounts if the expenses are not paid by the plan sponsor. These expenses will appear on your quarterly retirement statement, if applicable.

Additionally, an explanation of any fees and expenses that may be charged to or deducted from the individual account of a specific participant based on the actions taken by that person are described below. The dollar amount of fees and expenses that are actually charged to a participant's account during the preceding quarter will be reflected on the participant's quarterly retirement statement.

Frequent trading policy: Transactions associated with market timing – such as frequent, large, or short-term transfers among investment options – can affect the underlying funds and their investments. Lincoln therefore reviews the number of transfers that a participant makes within given periods of time to determine if any transfer attempts to capitalize upon short-term movements in the equity markets (Market Timing Policy). If so, the participant's transfer activity will be subject to further scrutiny. Potential market timing or frequent trading may result in future trading restrictions, up to and including temporary (or permanent) revocation of telephone exchange privileges.

Total annual operating expense: Expenses that reduce the rate of return of the investment option.

Net Operating Expense: Total annual operating expense net of any applicable fund company waivers/reimbursements.

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. For an example of the long-term effects of fees and expenses on your retirement account, visit the Department of Labor website at <https://www.dol.gov/sites/default/files/ebsa/about-ebsa/ouractivities/resource-center/publications/a-look-at-401k-plan-fees.pdf>. Fees and expenses are only

one of many factors to consider when you decide to invest in an option. You may also want to consider whether an investment in a particular option, along with your other investments, may help you achieve your financial goals.
