

No ifs, ands or butts

Look to Lincoln underwriting for clients who like cigars

Special considerations for non-cigarette tobacco-using clients

Do any of your clients suffer from higher life insurance premiums simply because they enjoy cigars or pipes? Lincoln's dedicated customer-focused underwriting takes a client's entire risk profile into account, which could result in a better rating and lower rates.

Lincoln offers the standard nonsmoker risk classification to tobacco-using individuals who

Meet all standard criteria per underwriting guidelines

Use chewing tobacco, pipe or cigars

May test positive for nicotine by urine sample

Have not used cigarettes or vaped (using nicotine, nicotine liquid or flavored liquids) in the past 12 months

Note: The client must admit to use of chewing tobacco, pipe or cigars at the time of application. Unadmitted use with a positive nicotine urine specimen would not qualify for nonsmoker rates. Marijuana is not considered a tobacco product and can qualify for nontobacco rates.

Insurance products issued by:
