

Third-Party Investment Advisory Platforms

Lincoln Financial Securities Corporation (“LFS”) offers its clients access to a broad selection of third-party (or turn-key) asset management programs (“TAMPs”) from a variety of different TAMP sponsors. Some of the sponsors whose TAMPs are available through LFS directly compensate LFS for marketing their TAMPs. LFS’s receipt of this compensation presents a conflict of interest for LFS given LFS’s financial incentive to offer TAMPs that make these payments to LFS and to recommend that you use TAMPs that make the highest rate and amount of these payments to LFS, rather than other available TAMPs that make relatively lower or no payments to LFS. LFS is providing you with this marketing support disclosure so that you are informed about our various conflicts of interest associated with our TAMP offerings and recommendations. We encourage you to contact us or your LFS financial professional with any questions you may have regarding these arrangements, and LFS’s related conflicts of interest, before utilizing any TAMPs available through LFS.

LFS’s Direct Marketing Support Arrangements with TAMP Sponsors

LFS receives additional compensation, sometimes called “marketing support,” directly from certain TAMP sponsors available through LFS. TAMP sponsors make these payments to LFS out of their or their affiliates’ assets, not from your advisory account assets or the assets of any investment vehicle held in your advisory account. Therefore, these payments will not appear as a fee or expense deducted from your advisory account, or as an item in the expense table disclosure for any investment vehicle held in your advisory account. The method, timing, rate, and amount of these marketing support payments vary by TAMP sponsor, but marketing support payments are typically paid using one or more of the following methodologies: payment of an annual fee based on a percentage of LFS client assets held with the TAMP sponsor and/or payment of a flat annual fee. Payment rates and amounts vary by TAMP sponsor, but TAMP sponsors generally pay LFS: up to 0.05% annually of total LFS client assets held with the TAMP sponsor and/or flat annual fees that do not exceed \$460,000 annually. Accordingly, with respect to the arrangements where payments are based on total LFS client assets held with the TAMP sponsor, the payments LFS receives will increase with the amount of client assets placed with the TAMP sponsor.

These marketing support payments subsidize the cost of educational programs and marketing activities that are designed to help facilitate the utilization of these sponsors’ TAMPs and make our financial professionals more knowledgeable about their TAMPs. In addition, these payments allow these TAMP sponsors’ representatives to attend and participate in LFS conferences where financial professionals are present, one-on-one marketing meetings, and due diligence presentations.

The TAMP sponsors with which LFS has direct marketing support arrangements are:

AssetMark	Flexible Plan Investments
Brinker Capital	Morningstar
CLS Investments	SEI Investments
	Symmetry Partners

You should be aware that there are TAMPs available through LFS that do not pay LFS any marketing support payments and therefore are likely to be less expensive for you to use than TAMPs that do make such payments to LFS.

The marketing support payments that LFS receives from the above TAMP sponsors create financial incentives for LFS that result in conflicts of interest for LFS. In particular, LFS has a conflict of interest given its financial incentive to offer the TAMPs that make marketing support payments to LFS and to recommend that you use TAMPs that make such payments to LFS, rather than other available TAMPs that do not make such payments to LFS. In addition, LFS has a financial incentive to offer the TAMPs that make the highest rate and amount of marketing support payments to LFS and to recommend that you utilize those TAMPs, rather than other available TAMPs that make relatively lower or no marketing support payments to LFS. Additionally, Certain TAMP sponsors pay LFS more or less depending on the particular asset class or investment strategy utilized. Given this fact, LFS has a conflict of interest given its financial incentive to recommend that you use TAMPs, asset classes, and investment strategies that generate the highest rate and amount of marketing support payments to LFS, rather than other available TAMPs, asset classes, and investment strategies that generate relatively lower or no marketing support payments to LFS. LFS mitigates these conflicts of interest by: (i) disclosing them to you; (ii) not sharing any marketing support payments with the LFS financial professionals that recommend TAMP sponsors, TAMPs, asset classes, or investment strategies for your account; and (iii) requiring that there be a review of your account at account opening and periodically to determine whether it is suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics.

Other Marketing Support from TAMP Sponsors

In addition to the marketing support payments that LFS receives through the formal marketing support arrangements described above, TAMP sponsors, including, but not limited to, those that have formal marketing support arrangements with LFS, make flat dollar payments to LFS from time to time. These payments are made for specific activities, including, but not limited to, exhibit booth space, presentation opportunities at LFS meetings or similar events, attendance at conferences, educational events for LFS financial professionals, and participation in other training and educational events. Some TAMP sponsors also reimburse LFS and, indirectly, its financial professionals for certain expenses in connection with due diligence meetings, training and educational events, seminars that offer educational opportunities for clients, and similar events. Some TAMP sponsors also provide LFS and its financial professionals with nominal gifts and gratuities, including, but not limited to, merchandise bearing the brand or logo of the TAMP sponsor. For similar reasons as those noted above, these arrangements create financial incentives for LFS that result in conflicts of interest for LFS. LFS mitigates these conflicts of interest by adopting measures similar to those noted above and also by requiring every TAMP sponsor, whether or not providing marketing support to LFS through a formal or informal arrangement, including their wholesalers, employees, and agents, to comply with LFS's non-cash compensation policies as they relate to additional payments and compensation, including, but not limited to, marketing support. TAMP sponsors must also provide documents or other information to evidence compliance with these policies upon request.

You should carefully consider the investment objectives, risks, costs, and expenses of a particular TAMP before investing. Read LFS's and the applicable TAMP sponsor's Form ADV, Part 2A and the other information provided by LFS and the TAMP sponsor you select carefully before investing. Investing through TAMPs entails material risks and clients could lose all or a portion of their investment.

For additional information on LFS's various compensation arrangements and related conflicts of interest, please see LFS's Form CRS and Forms ADV, Part 2A, as applicable, which are available at www.lfsecurities.com under My accounts—Disclosures.
