*These returns are non-standardized and are measured from the inception date of the fund and predate its availability as an investment option in the variable annuity (separate account). This hypothetical representation depicts how the investment option would have performed had the fund been available in the variable annuity during the time period. It includes deductions for the M&E charge (guarantee of principal death benefit) and the contract administrative fee (if applicable). The cost for other riders with quarterly charges is not reflected. If applicable for this product, no flat fees, no surrender charges and no annual contract charges are reflected.

Quoted performance data represents past performance; past performance does not guarantee or predict future performance. Current performance may be lower or higher than the performance data quoted. Please keep in mind that double-digit returns are highly unusual and cannot be sustained. Investment return and principal value of an investment will fluctuate so that an investor's unit values, when redeemed, may be worth more or less than their original cost. Variable products are sold by prospectus. For performance information current to the most recent month-end, a prospectus, or summary prospectus, go to www.LincolnFinancial.com or call 888-868-2583. Investors should consider a fund's investment objective, risks, charges and expenses before investing. The fund prospectus and, if available, the summary prospectus contain this and other important information. Please read the prospectus carefully before investing.

The yield quotation more closely reflects the current earnings of the money market fund than the total return quotation.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share (or for the LVIP Government Money Market Fund at \$10.00 per share), it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

**In compliance with SEC guidelines, these results show each investment option's average annual total return as of the most recent quarter. These numbers reflect the deduction of the M&E charge (if applicable), administrative fee and surrender charges (if applicable) and a pro rata share of the annual contract charge. For performance purposes, any applicable flat dollar fees have been converted to asset-based charges as a percentage of the average contract size up to the threshold maximum as shown in the prospectus. Performance results will be different when the account passes the threshold (if applicable) because fees will be lower. The cost for other riders with quarterly charges is not reflected. Returns shown for periods of less than one year are not annualized.

Quoted performance data represents past performance; past performance does not guarantee or predict future performance. Current performance may be lower or higher than the performance data quoted. Please keep in mind that double-digit returns are highly unusual and cannot be sustained. Investment return and principal value of an investment will fluctuate so that an investor's unit values, when redeemed, may be worth more or less than their original cost. Lincoln Level Advantage® indexed variable annuity is a long-term investment product designed for retirement purposes. There are no explicit fees associated with the indexed-linked account options available. There are associated fees with the variable annuity subaccounts, which include a product charge, and administrative fees. Annuities are subject to market risk including loss of principal. Withdrawals are subject to ordinary income tax treatment and, if taken prior to age 59½ in nonqualified contracts, may be subject to an additional 10% federal tax. Indexed-linked variable annuity products are complex insurance and investment vehicles and are subject to surrender charges for early withdrawals. Please reference the prospectus for information about the levels of protection available and other important product information.

The risk of loss occurs each time you move into a new indexed account after the end of an indexed term. The protection level option selected in the indexed account helps protect you from some downside risk. If the negative return is in excess of the protection level selected, there is a risk of loss of principal. Protection levels that vary based on the index and term selected are subject to change and may not be available with every option. Please see the prospectus for details.

Investors are advised to consider the investment objectives, risks, and charges and expenses of the variable annuity and its underlying investment options carefully before investing. The applicable prospectuses for the variable annuity and its underlying investment options contain this and other important information. Please call 888-868-2583 for free prospectuses. Read them carefully before investing or sending money. Products and features are subject to state availability.
