This brochure provides information about the qualifications and business practices of Lincoln Financial Securities Corporation. If you have any questions about the contents of this brochure, please contact us at (800) 237-3813 or LFNAdvisoryServices@lfg.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission (the "SEC") or by any state securities authority. Registration as an investment adviser does not imply a certain level of skill or training.

Additional information about Lincoln Financial Securities Corporation also is available on the SEC's website at www.adviserinfo.sec.gov.

Lincoln Financial Group is the marketing name for Lincoln National Corporation and its affiliates.

LFN11324

Item 2: Material Changes

This annual updating amendment to the brochure (this “Brochure”) for the third-party asset management programs, retirement plan services, financial planning services, and other advisory services offered by Lincoln Financial Securities Corporation (“LFS”) is dated March 28, 2024 and the last annual updating amendment to this Brochure was dated March 30, 2023. Material changes to this Brochure since the last annual updating amendment dated March 30, 2023 include the following:

- LFS updated Item 4 of this Brochure to provide clients with notice that LFS’s parent company, Lincoln National Corporation (“LNC”), signed a stock purchase agreement with Osaic Holdings, Inc. (“Osaic”) on December 14, 2023 pursuant to which Osaic will acquire LNC’s wealth management business, including LFS. The transaction is expected to close in the first half of 2024, subject to customary closing conditions, including regulatory approvals. The change in ownership of LFS, which will occur upon closing of the transaction, will result in a technical assignment of LFS’s investment advisory agreements with clients. By signing an investment advisory agreement with LFS after receiving this Brochure, clients will be deemed to have consented to the assignment of their investment advisory agreement with LFS upon the closing of the transaction. The transaction will not affect clients’ investment advisory accounts or their relationship with their LFS investment adviser representatives (“IARs”), and there will be no change in the investment advice and services that clients are receiving under their investment advisory agreements with LFS.
- LFS updated Item 4 of this Brochure to provide clients with additional information regarding the material risks and costs associated with investments in alternative and non-traditional investments.
- LFS updated Items 4 and 5 of this Brochure to provide clients with information regarding the retirement services offered by AssetMark, Inc. (“AssetMark”), including a description of the retirement services available through AssetMark and the related fees that clients will incur.
- LFS updated Item 5 of this Brochure to provide clients with: (1) updated information regarding the expenses that LFS incurs and the business development credits, net flows credits, and other revenue that LFS receives through its clearing agreement with National Financial Services LLC, as well as LFS’s related conflicts of interest; (2) updated information regarding the marketing support payments that LFS receives from certain third parties; (3) updated information regarding the compensation and benefits that LFS’s IARs receive from LFS, as well as their related conflicts of interest; and (4) information regarding the conflicts of interest that LFS and its IARs have in connection with the securities-backed loans that LFS makes available to clients through certain third-party lenders.
- LFS updated Item 9 of this Brochure to provide clients with updated information regarding its disciplinary history. In particular, LFS updated Item 9 to disclose that, on February 9, 2024, LFS entered into a settlement with the Securities and Exchange Commission (the “SEC”) in connection with the SEC staff’s risk-based initiative to investigate whether registered firms are properly maintaining business-related communications sent or received by their personnel on personal devices (“off-channel communications”). In the settlement, LFS acknowledged that it violated Section 17(a) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and Rule 17a-4(b)(4) thereunder and Section 204 of the Investment Advisers Act of 1940, as amended (the “Advisers Act”), and Rule 204-2(a)(7) thereunder by failing to maintain records of certain off-channel communications, including text messages, sent and received by LFS personnel and by failing to reasonably supervise LFS personnel’s business-related communications from at least January 2019 through the date of the settlement. As part of the settlement, LFS was censured, ordered to cease and desist from committing or causing future violations of Section 17(a) of the Exchange Act and Rule 17a-4 thereunder and Section 204 of the Advisers Act and Rule 204-2 thereunder, and ordered to pay a civil money penalty in the amount of \$8.5 million on a joint and several basis with its affiliate, Lincoln Financial Advisors Corporation. Additionally, LFS was ordered to comply with certain undertakings, including an undertaking to engage an independent compliance consultant to conduct a review of LFS’s policies and procedures, training, surveillance program, technology solutions, and similar matters related to off-channel communications. LFS cooperated with the SEC staff’s investigation and has taken steps to strengthen its compliance environment as it relates to off-channel communications.

You are strongly encouraged to read this Brochure in detail and contact your IAR with any questions. If you would like another copy of this Brochure or a copy of any other LFS brochure, please feel free to access and download it from our website at www.lfsecurities.com under My accounts—Disclosures or at www.lfg.com/public/individual/adv, or from the SEC’s website at www.adviserinfo.sec.gov. You also may request another copy of this Brochure or a copy of any other LFS brochure by contacting LFS at (800) 237-3813 or LFNAdvisoryServices@lfg.com.

ABOUT LFS

LFS was incorporated in 1969 and has been registered with the SEC as an investment adviser since 1985. LFS is wholly owned by Lincoln National Corporation (“LNC”), a publicly held entity. Lincoln Financial Group is the marketing name for LNC and its affiliates.

On December 14, 2023, LNC signed a stock purchase agreement with Osaic Holdings, Inc. (“Osaic”) pursuant to which Osaic will acquire LNC’s wealth management business, including LFS. The transaction is expected to close in the first half of 2024, subject to customary closing conditions, including regulatory approvals. The change in ownership of LFS, which will occur upon closing of the transaction, will result in a technical assignment of LFS’s investment advisory agreements with clients. By signing an investment advisory agreement with LFS after receiving this Brochure, clients will be deemed to have consented to the assignment of their investment advisory agreement with LFS upon the closing of the transaction. The transaction will not affect clients’ investment advisory accounts or their relationship with their IARs, and there will be no change in the investment advice and services that clients are receiving under their investment advisory agreements with LFS.

As of December 31, 2023, LFS managed approximately \$3.2428 billion of client assets on a non-discretionary basis and approximately \$1.2404 billion of client assets on a discretionary basis.

LFS offers a wide variety of investment advisory programs and services. Certain of LFS’s IARs market their practices using marketing names that differ from the name under which LFS primarily conducts its advisory business. In these circumstances, clients should be aware that all investment advisory services described herein are provided by IARs through and on behalf of LFS, not the marketing names that IARs use to market their practices.

LFS’s IARs assist clients in pursuing their financial goals by providing personalized financial planning services and investment solutions. The investment advisory programs and services described in this Brochure may also be offered by certain independently registered investment advisers, who are also registered representatives of LFS in its capacity as a registered broker-dealer (each, an “RIA”). References in this Brochure to the products and services offered by the IARs include the RIAs.

This Brochure provides an overview of the investment advisory programs sponsored by third parties that are offered through LFS, LFS’s financial planning services, LFS’s retirement plan consulting program, and certain other advisory services.

Any information you receive from LFS or the IARs relating to the tax considerations affecting your financial arrangements or transactions is not intended to be tax advice and you should not rely upon it as tax advice. Neither LFS nor the IARs provide tax, legal, or accounting advice.

In addition to the advisory programs and services described in this Brochure, LFS also offers the following advisory programs and services, which are described in separate Forms ADV, Part 2A:

- *Lincoln WealthLinc*SM Platform (which includes the *Lincoln WealthLinc* Access Program and the *Lincoln WealthLinc* Alliance Program) (“WealthLinc”);
- Custom Wealth Advantage Choice Wealth Management Program (the “CWA Choice Program”); and
- Custom Wealth Advantage Program (which includes the Custom Wealth Advantage Separately Managed Accounts Program, Custom Wealth Advantage Unified Portfolio, the Custom Wealth Advantage Mutual Fund Program, and the Custom Wealth Advantage Strategist Program) (the “CWA Program”).

For a detailed discussion of each of the advisory programs and services listed above, including the fees and expenses you will pay, the compensation LFS and the IARs will receive, and LFS’s and the IARs’ conflicts of interest in connection with them, you should refer to the Form ADV, Part 2A for the particular advisory program or service, which is available on our

website at www.lfsecurities.com under My accounts—Disclosures or at www.lfg.com/public/individual/adv, and on the SEC’s website at www.adviserinfo.sec.gov. These Forms ADV, Part 2A may also be requested by contacting LFS at (800) 237-3813 or LFNAdvisoryServices@lfg.com.

AVAILABLE ACCOUNTS AND RELATIONSHIP TYPES

When you choose to purchase products and services through LFS and work with an LFS financial professional, you have the option of investing through a transaction-based account, such as a brokerage account, a fee-based investment advisory program, or both. It is important for you to understand the services you will receive, the fees, costs, and expenses you will pay, and LFS’s and your LFS financial professional’s conflicts of interest in connection with each of these different types of accounts and relationships with LFS and your LFS financial professional. These services, fees, costs, expenses, and conflicts of interest are summarized below and described in much greater detail in LFS’s Form CRS, Regulation Best Interest (“Reg BI”) Disclosure Document, and Forms ADV, Part 2A, as applicable, which are available on LFS’s website at www.lfsecurities.com under My accounts—Disclosures.

Transaction-Based Account, Such as a Brokerage Account

With a transaction-based account, such as a brokerage account, you will pay commissions and other charges (such as sales loads on mutual funds and other securities and investment products) at the time of each transaction, such as the purchase or sale of a mutual fund, stock, bond, option, AI (as defined below), or other security or investment product. These commissions and other charges are LFS’s and your LFS financial professional’s primary source of compensation for the transaction-based advice your LFS financial professional provides when recommending such transactions. When serving as your broker, your LFS financial professional can make recommendations and provide guidance to you in selecting securities, other investment products, and services. Your LFS financial professional may also provide investment education and research services, which are incidental to the brokerage services LFS provides. A transaction-based account can potentially be more appropriate for you than a fee-based investment advisory account if you do not want ongoing investment advice on assets held in your account, or ongoing management of your account, and instead want only periodic or on-demand advice and recommendations specific to the purchase and sale of securities and other investment products. Additionally, this type of account can potentially result in lower costs for you if you expect to trade on an infrequent or occasional basis.

When LFS and your LFS financial professional make securities and investment strategy recommendations to you as broker-dealer for your transaction-based account, such as a brokerage account, LFS and your LFS financial professional are required to act in your best interest, without placing their financial or other interests ahead of your interests. Additionally, when LFS and your LFS financial professional provide investment advice to you on a regular basis regarding your Employee Retirement Income Security Act of 1974, as amended (“ERISA”), retirement plan account or individual retirement account (“IRA”), LFS and your LFS financial professional are fiduciaries within the meaning of Title I of ERISA and/or the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”), as applicable, which are laws governing retirement accounts. You should be aware that LFS and your LFS financial professional are subject to various conflicts of interest in connection with the recommendations and other services they provide to you in connection with your transaction-based accounts. These conflicts of interest result from various arrangements, including, but not limited to, the roles LFS and your LFS financial professional play in a transaction, LFS’s and your LFS financial professional’s compensation arrangements, and LFS’s financial and other arrangements with custodians, clearing firms, other service providers, its affiliates, third-party product and service providers, and others. Important information regarding these conflicts of interest is provided in LFS’s Form CRS and Reg BI Disclosure Document, as well in the other important client disclosures available on LFS’s website, www.lfsecurities.com.

For additional information on LFS’s broker-dealer services and transaction-based account offerings, please see LFS’s Form CRS and Reg BI Disclosure Document, which are available on LFS’s website at www.lfsecurities.com under My accounts—Disclosures. LFS’s Form CRS and Reg BI Disclosure Document may also be requested by contacting LFS at (800) 237-3813 or LFNAdvisoryServices@lfg.com. For detailed information regarding the commissions, trading/execution fees, and brokerage service charges that LFS establishes, controls, and charges clients when serving as broker-dealer of record for transaction-based accounts held with National Financial Services LLC (“NFS”), please see LFS’s Fee and Commission Schedule for Accounts with NFS (the “LFS Fee Schedule”),

which is provided to you at account opening, will change over time, and can be found on LFS's website at www.lfsecurities.com under My accounts—Cost.

Before consenting to any broker-dealer relationship with LFS or an LFS financial professional, you should review the important disclosures referenced above, including those related to the services you will receive, the fees, costs, and expenses you will pay, the compensation LFS and its financial professionals will receive, and LFS's and its financial professionals' conflicts of interest. After reviewing these disclosures, please address any questions you may have with your LFS financial professional.

Fee-Based Investment Advisory Program

A fee-based investment advisory program, sometimes called a “managed account,” can potentially be more appropriate for you than a transaction-based account, such as a brokerage account, if you want ongoing investment advice and management of your account. LFS offers a number of different investment advisory programs and services and acts as the sponsor and broker-dealer in connection with some of those programs and services.

With a fee-based investment advisory account, you will pay an ongoing investment advisory fee based on the value of the assets held in your account in exchange for ongoing investment advice and management of your account and related services. This asset-based fee is LFS's and your IAR's primary source of compensation for the ongoing investment advice provided by your IAR. You generally will not be charged commissions for each purchase or sale of a security or other investment product in a fee-based investment advisory account; however, you will be charged for (1) any transaction, trading, and execution charges that are applicable to trades and other transactions (including, but not limited to, “step-out” trades) occurring within your account and (2) other fees, costs, and expenses applicable to your account, the brokerage and other services provided to you and your account, and the securities and other investment products purchased, held, and sold in your account, in each case as described in your account-opening documentation and in the prospectuses and other disclosure documents for the securities and other investment products you purchase, hold, and sell. Transaction, trading, and execution charges you pay are not used to compensate your IAR for their services in this type of account.

Certain investment advisory programs that LFS offers charge an “all-inclusive” bundled fee based on the value of the assets in your account. This bundled fee usually includes a portfolio management fee, transaction, trading, and execution costs, and investment advice and is sometimes referred to as a “wrap fee.” However, this bundled fee does not include costs associated with transactions that are executed at broker-dealers other than the one at which your account is held. Transactions executed at broker-dealers other than the one at which your account is held are sometimes called “step-out” trades and are described further in Items 5 and 12 below. Fees vary depending on which LFS advisory programs and services you use. LFS's advisory program fees are billed either in arrears (*i.e.*, following the completion of the applicable billing period) or in advance (*i.e.*, at the beginning of the applicable billing period) depending on the program you select, and your billing methodology (*i.e.*, in arrears or in advance) will be specified in your client service agreement, Statement of Investment Selection or Statement of Insurance Selection, as applicable (“SIS”), or other account-opening documentation. Fees are charged either monthly or quarterly, as specified in your client service agreement, SIS, or other account-opening documentation, based on the assets held within your account for services including, but not limited to, ongoing investment advice, investment selection and recommendations, asset allocation, execution of transactions (depending on the program you are in), custody of securities, and account reporting services. Please see your client service agreement, SIS, and other account-opening documentation for additional information. After reviewing these documents, please address any questions you may have with your IAR.

LFS permits certain alternative or non-traditional investments, including, but not limited to, non-traded real estate investment trusts, oil and gas programs, managed futures funds, interval funds, hedge funds, funds of hedge funds, private equity funds, and other limited partnerships, private placements, and non-traded investment programs (collectively, “AIs”), to be held within WealthLinc and Custom Wealth Advantage Wealth Management Program (“CWA”) accounts as “supervised” assets. The AIs LFS permits to be held within WealthLinc and CWA accounts as supervised assets generally will be in a share class designed or intended to be used in connection with a fee-based account. In these cases, LFS and its IARs will serve in an investment advisory capacity with respect to the supervised AI, LFS and its IARs will provide investment advisory services and oversight on the supervised AI as they would with other supervised assets maintained in the WealthLinc or CWA account, and the supervised AI will be included in the calculation of the WealthLinc or CWA

account's advisory fee and performance. If these circumstances are applicable to your AI, the AI Worksheet you complete in connection with your AI investment or your other account documentation will inform you of the fact that your AI will be a supervised asset included in the calculation of your WealthLinc or CWA account's advisory fee and performance. Additionally, the quarterly performance reports you receive from LFS in connection with your WealthLinc or CWA account will reflect your AI as a supervised asset included in the calculation of your WealthLinc or CWA account's advisory fee and performance. In some TAMP (as defined below) programs described in this Brochure, the third-party investment managers use AIs in the management of client accounts and include AI assets in their, LFS's, and the IAR's fee calculations and in their account performance calculations. Please see your account-opening documentation for additional information.

Alternatively, certain AIs may only be held in WealthLinc and CWA accounts as "unsupervised" assets for consolidated reporting purposes and convenience (e.g., in certain cases where the AI was purchased on a commission basis outside of the WealthLinc or CWA account and is later transferred to the WealthLinc or CWA account). In these cases, LFS and its IARs will not serve in an investment advisory capacity with respect to the unsupervised AI, LFS and its IARs will not provide investment advisory services or oversight on the unsupervised AI, and the unsupervised AI will be excluded from the calculation of the WealthLinc or CWA account's advisory fee and performance. If these circumstances are applicable to your AI, the quarterly performance reports you receive from LFS in connection with your WealthLinc or CWA account will reflect your AI as an unsupervised asset that is not included in the calculation of your WealthLinc or CWA account's advisory fee and performance. While unsupervised AIs are not included in the calculation of WealthLinc or CWA account advisory fees, clients' unsupervised AIs are subject to all other applicable fees as described in the transaction, trading, execution, and brokerage service fee schedules and other documentation applicable to their WealthLinc or CWA account, including, but not limited to, AI annual custody and valuation fees.

Clients should carefully consider the investment objectives, risks, costs, and expenses of an AI and particular AI share class before investing. This and other important information is available in each AI's prospectus, private placement memorandum, or other offering documents, which can be obtained from your IAR. Clients should be aware that investing in AIs involves material risks, including illiquidity risks, risks related to the difficulty in valuing certain AIs as a result of the assets in which they invest, risks related to the inability to obtain daily or otherwise current valuations for certain AIs, and other special risks, and that clients could lose all or portion of their AI investment. Additionally, clients should be aware that AI investments will in certain circumstances involve additional fees and expenses, including, but not limited to, fees imposed by AI platforms and investment vehicles through which LFS makes certain AIs available to clients.

LFS's advisory fees generally are negotiable. Some programs, like the CWA Choice Program, charge separately for asset management services, ongoing investment advice, and transaction costs. In such programs, you will be charged for any transaction, trading, and execution fees, costs, and expenses that are applicable to trades and other transactions occurring within your account, as described in your account-opening documentation, in addition to your asset-based advisory fees. Applicable transaction, trading, execution, and other fees, costs, and expenses are described in detail in the applicable program's client service agreement; SIS; transaction, trading, execution, and brokerage service fee schedules; other account-opening documentation; and Form ADV, Part 2A.

When LFS and your LFS financial professional serve as investment adviser for your fee-based account, LFS and your LFS financial professional are required to act in your best interest, without placing their financial or other interests ahead of your interests. Additionally, when LFS and your LFS financial professional provide investment advice to you on a regular basis regarding your ERISA retirement plan account or IRA, LFS and your LFS financial professional are fiduciaries within the meaning of Title I of ERISA and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. You should be aware that LFS and your LFS financial professional are subject to various conflicts of interest in connection with the investment advice and other services they provide to you in connection with your fee-based accounts. These conflicts of interest result from various arrangements, including, but not limited to, the roles LFS and your LFS financial professional play in a transaction, LFS's and your LFS financial professional's compensation arrangements, and LFS's financial and other arrangements with custodians, clearing firms, other service providers, its affiliates, third-party product and service providers, and others. Important information regarding these conflicts of interest is provided in LFS's Form CRS and Forms ADV, Part 2A, as well in the other important client disclosures available on LFS's website, www.lfsecurities.com.

For additional information on LFS's investment advisory programs and services, please see LFS's Form CRS and Forms ADV, Part 2A, which are available through our website at www.lfsecurities.com under My accounts—Disclosures or at www.lfg.com/public/individual/adv, and through the SEC's website at www.adviserinfo.sec.gov. LFS's Form CRS and Forms ADV, Part 2A may also be requested by contacting LFS at (800) 237-3813 or LFNAdvisoryServices@lfg.com. For detailed information regarding the trading/execution fees and brokerage service charges that LFS establishes, controls, and charges clients when serving as broker-dealer of record for WealthLine and CWA accounts held with NFS, please see the LFS Fee Schedule, which is provided to you at account opening, will change over time, and can be found on LFS's website at www.lfsecurities.com under My accounts—Cost.

Before consenting to any investment advisory relationship with LFS or an LFS financial professional, you should review the important disclosures referenced above, including those related to the services you will receive, the fees, costs, and expenses you will pay, the compensation LFS and its financial professionals will receive, and LFS's and its financial professionals' conflicts of interest. After reviewing these disclosures, please address any questions you may have with your LFS financial professional.

THIRD-PARTY INVESTMENT ADVISORY PROGRAMS

LFS offers clients access to several investment advisory and asset allocation programs sponsored by third-party asset management firms, which are sometimes referred to as turn-key asset management programs ("TAMPs"). TAMP programs allow clients to choose from a variety of professional investment managers. TAMPs offer clients different model portfolios associated with different levels of risk. LFS generally does not provide asset management or portfolio management functions for client accounts held in TAMP programs, as the assets and portfolios are managed by the TAMP sponsor and/or one or more investment managers made available through the TAMP program. Client accounts in TAMP programs may be invested in a number of different securities and other investment products, including, but not limited to, stocks, bonds, mutual funds, options, annuity contracts, AIs, and exchange-traded funds ("ETFs"). LFS is generally not responsible for the selection of any securities or other investment products purchased, held, sold, or otherwise chosen as investments in client accounts that are invested through TAMP programs, including, but not limited to, any illiquid investments, AIs, specific mutual funds, or particular share classes. The specific services offered by TAMPs, the fees, costs, and expenses associated with those services, and the TAMP sponsor's and applicable investment managers' conflicts of interest are detailed in the applicable TAMP sponsor's disclosure brochure and in the account-opening paperwork and client agreements that a client completes prior to or in connection with entering into a TAMP program.

The following description provides an overview of the different TAMP programs offered through LFS. Please refer to the relevant Form ADV, Part 2A for each TAMP or TAMP program (other than the SEI Mutual Fund Asset Allocation Program) for a detailed explanation of each of the TAMP programs offered through LFS.

In each of the TAMP programs described below, LFS provides advisory services that include assisting clients in completing a program questionnaire or similar client profiling tool to gather information about the client's financial circumstances, investment objectives, goals, risk tolerance, investment time horizon, and other pertinent information. After analyzing this information, the IAR will assist clients by providing ongoing investment advice in connection with the selection and, if necessary, replacement, of TAMP programs, asset allocation strategies, model portfolios, or other investment strategies based on the client's specific financial circumstances, needs, and goals. Any client information collected through this process will be shared among LFS, the IAR, the TAMP sponsor, the investment managers selected, the custodian, and the other parties performing services in connection with the client's TAMP account.

LFS researches, selects, and periodically reviews the TAMP programs that it offers to clients. In conducting TAMP evaluations and oversight, LFS uses information provided by TAMP program sponsors and may also use independent data sources. While LFS periodically reviews the performance and other characteristics of the TAMP programs that it offers, clients should understand that, like any investment strategy, asset allocation, model portfolio, or investment portfolio, the past performance of TAMP programs is no guarantee of the TAMP programs' future performance. Additionally, forecasts of future performance of financial markets or specific TAMP programs may prove to be incorrect for various reasons. Further, clients should understand that while diversification can potentially help spread risk throughout an investment portfolio, diversification alone does not guarantee a profit or protect against a loss. Finally, clients should understand that

different asset classes have different risk and potential return profiles and will perform differently in different market conditions.

When a client is considering a TAMP program, their IAR will typically present them with an investment strategy report, proposal, or other documentation that summarizes the TAMP program's recommendations based on the financial and other information provided by the client. The IAR may, if appropriate and permitted under the relevant program, suggest modifications to the program's recommendations to address client-specific needs. Additionally, the client has the ability to place reasonable restrictions on the management of their TAMP accounts. Once a client has selected a TAMP program in consultation with their IAR, the particular asset allocation strategy, model portfolio, or investment strategy that the client has selected will be implemented using the mutual funds and/or other securities and investment products offered through the relevant program. The client will typically appoint the TAMP program sponsor and/or the investment managers they have selected as their attorney-in-fact and delegate discretionary trading authority to those parties. This delegation of discretionary trading authority allows the TAMP program sponsor and/or the selected investment managers to buy and sell securities in the client's account without the client's prior approval for each transaction. Unless otherwise agreed to by LFS, the IAR, and the client, LFS and the IAR generally will not have any responsibility or authority to buy or sell securities in client accounts held in TAMP programs, to choose the initial or ongoing allocation of client assets held in TAMP programs, or to select TAMP sponsors and/or investment managers. The duties of all parties, including the client, LFS, the IAR, the TAMP sponsor, and applicable investment managers, are described in detail in your client agreement and other account-opening documentation and the Forms ADV, Part 2A of the TAMP program sponsor and applicable third-party investment managers. Clients should review these documents carefully and address any questions they may have with their IAR before opening an account with any TAMP sponsor.

If the client's investment objectives or financial situation change after their TAMP account is opened, or the client would like to impose reasonable restrictions on the management of their TAMP account (or modify reasonable restrictions, if any, previously placed on their TAMP account), the client should promptly notify their IAR, who will notify the TAMP program sponsor.

The TAMP program sponsor, third-party investment managers selected, and/or their affiliates and service providers are responsible for creating and sending reports to clients, including transaction reports, performance reports, and tax reports. LFS and its IARs do not independently audit TAMP program performance information to determine or verify its accuracy and do not calculate or audit the performance or other reports that TAMP program sponsors send to clients. Clients are strongly encouraged to carefully review the TAMP sponsor's and third-party investment managers' disclosures regarding prior performance with their IAR to determine the relevance of the prior performance to the client's account. LFS also strongly encourages clients to review the account statements provided by their custodian and compare those statements to any reports or statements provided by the TAMP program. After reviewing these statements and reports, clients should address any questions they may have with their IAR.

Solicitor Programs

While LFS has generally stopped offering TAMP programs to new clients through "solicitor" arrangements where LFS acts as a solicitor and refers clients to a TAMP, LFS does refer clients to certain TAMPs and third-party investment managers through solicitor or similar referral arrangements in very limited circumstances. Additionally, certain client accounts previously referred to TAMPs and third-party investment managers under now terminated solicitor arrangements remain active. In a solicitor arrangement, a TAMP sponsor or investment manager agrees to compensate LFS for providing them with client referrals. In these cases, LFS and the IAR receive referral fees for making the referral, which are generally referred to as "Solicitor Fees." In most cases, Solicitor Fees are calculated as a percentage of the client assets that the TAMP sponsor and/or third-party investment manager manages; however, there are instances where Solicitor Fees are paid under alternative arrangements. Solicitor Fees are disclosed to clients and prospective clients as and when required by the Investment Advisers Act of 1940, as amended (the "Advisers Act"), and the rules and regulations thereunder. In many cases, LFS and the IAR maintain an ongoing relationship with referred clients and may meet with referred clients periodically to assist them in reviewing the accounts managed by the TAMP or investment manager and to discuss other relevant financial matters. It is important for clients to understand that when LFS acts as a solicitor by referring clients to TAMPs or third-party investment managers, LFS does not provide investment advice to the client and does not act in a fiduciary or investment advisory capacity with respect to the referred client's accounts with the TAMP or investment manager. For

information regarding the conflicts of interest that LFS and its IARs have in connection with “solicitor” and other referral programs, please see Item 14, Client Referrals and Other Compensation, below.

Co-Advisory Programs

Except in the very limited circumstances described above under the heading “Solicitor Programs,” LFS offers only co-advisory TAMP programs to new clients. When LFS and a TAMP sponsor have a co-advisory agreement, each party acts in an investment advisory and fiduciary capacity to the client. In these programs, LFS and the IAR are responsible for recommending a TAMP program and investment strategy that are suitable for and in the best interest of the client based upon their review of the client’s financial situation, investment objectives, investment time horizon, risk tolerance, and other relevant information. The TAMP sponsor (or its selected investment managers or sub-advisers) generally is responsible for implementing and managing the client’s portfolio in accordance with the selected investment strategy, including by selecting securities and other investment products for the client’s account.

The responsibilities of all parties, including the client, LFS, the IAR, the TAMP sponsor, and applicable investment managers, are described in detail in your client agreement and other account-opening documentation and the Forms ADV, Part 2A of the TAMP program sponsor and applicable third-party investment managers. Clients should review these documents carefully and address any questions they may have with their IAR before opening an account with any TAMP sponsor.

The following are brief descriptions of the co-advisory TAMP programs currently being offered to LFS clients. These brief descriptions are provided for informational purposes only and are not intended to replace or fully summarize the detailed information provided in your TAMP program’s Form ADV, Part 2A, client agreement, and other account-opening documents, which provide detailed information regarding the services offered through the TAMP program, each party’s responsibilities in connection with the TAMP program, applicable investment minimums, the investment advisory and other fees, costs, and expenses you will incur, the TAMP sponsor’s and investment managers’ conflicts of interest, and other important matters. As such, you should rely on the detailed information provided in your TAMP program’s Form ADV, Part 2A, client agreement, and other account-opening documents when deciding whether to participate in a TAMP program offered through LFS, and you should address any questions you may have with your IAR before proceeding. Each TAMP program’s Form ADV, Part 2A is available from your IAR and on the SEC’s website at www.adviserinfo.sec.gov, and will be provided to you at or before account opening.

SEI Investments Management Corporation

LFS has an agreement with SEI Investments Management Corporation (“SIMC”), SEI Private Trust Company, and SEI Global Services, Inc. (collectively, “SEI”) under which LFS offers various asset allocation and investment advisory programs sponsored by SEI. SEI offers an investment management approach that uses actively managed asset allocation to help meet the client’s objectives. SEI offers a style-specific, multi-manager investment approach to pursue less volatile long-term performance and attempt to reduce risk. In addition, SEI monitors for style drift that might generate uncompensated risk. Client portfolios are designed with a diversified asset allocation to provide flexibility to address client needs. SEI provides clients with a monthly consolidated statement, quarterly performance reports, and an annual tax report. SEI’s programs may use global diversification and tax-efficient strategies to help reduce realized capital gains and tax liability. SEI imposes minimum investment requirements for its programs and those minimum investment requirements may be modified, waived, or negotiated at SEI’s discretion.

In addition to the various SEI programs that LFS offers through a co-adviser model, LFS also offers clients access to the SEI Mutual Fund Asset Allocation Program. This program offers clients access to actively managed asset allocation portfolios comprised exclusively of no-load mutual funds advised by SIMC (“SEI Funds”). The asset allocation portfolios are constructed and maintained by SIMC based on its capital market assumptions and other criteria SIMC, in its sole discretion, determines is relevant. The IARs assist clients in selecting a specific asset allocation portfolio that is appropriate for the client based on information the client supplies in response to an investment questionnaire. The client directs the IAR to instruct SEI to purchase and sell SEI Funds pursuant to the asset allocation portfolio and rebalancing parameters selected by the client. In this program, SEI does not serve in a co-adviser capacity with LFS and LFS serves as the sole investment adviser to your account.

AssetMark, Inc.

LFS offers the following asset allocation and other advisory services sponsored by AssetMark, Inc. (“AssetMark”).

AssetMark’s Asset Allocation System

LFS and the IARs offer AssetMark’s asset allocation system, in which clients are introduced to investment managers who provide discretionary management of individual portfolios of equity and/or fixed-income securities. Clients may also invest in model portfolios of mutual funds, ETFs, and variable annuity sub-accounts created and maintained by institutional investment strategists. AssetMark imposes minimum investment requirements for its programs and those minimum investment requirements may be modified, waived, or negotiated at AssetMark’s discretion.

LFS and the IARs do not have any responsibility or authority to determine the investment managers made available through the AssetMark platform or to add or remove investment managers from AssetMark’s platform. In addition, LFS and the IARs have no responsibility to determine how AssetMark or the investment managers allocate client assets, to buy or sell securities or other investment products for client accounts, or to select broker-dealers with which transactions will be effected. All decisions with respect to the availability of investment managers and other service providers are made by AssetMark. The selection of specific investment managers and broker-dealers used in connection with a specific client account will be made by the client during the account-opening process or by subsequently providing authorization of any such selection to LFS, the IAR, and/or AssetMark. Trading authorization will be granted by client to AssetMark or another investment manager under the terms of the investment advisory agreement governing the AssetMark program.

AssetMark’s Retirement Services

LFS and the IARs also offer AssetMark’s retirement services through which AssetMark’s Retirement Services division provides investment advisory services to employer-sponsored retirement plans. AssetMark’s investment advisory services include the development of investment alternatives, including individual mutual funds, ETFs, and managed account solutions, that retirement plan sponsors can include in their employer-sponsored retirement plans. These services are offered in connection with various retirement plan recordkeeping services and custodians with which AssetMark has developed connectivity to deliver its services. LFS, through its IARs, will assist the retirement plan sponsor in selecting AssetMark to provide investment advisory services, and may perform one or more of the following services with respect to the retirement plan: educating and supporting the responsible plan fiduciary; periodic review of the plan’s investment policy statement; review of the plan’s investment product section, the plan’s designated investment alternatives, and/or the plan’s qualified default investment alternative; assisting with plan service provider evaluation, selection, and oversight processes; review of third-party investment managers and investment advice providers; facilitating group enrollment meetings and participant investment education; and assisting participants with financial wellness education, retirement readiness, and gap analyses. The respective roles and responsibilities of all parties, including acknowledgements of fiduciary status under ERISA, as applicable, are set forth in the service agreements and related documents executed by clients electing these services, including the AssetMark Retirement Services Division Client Services Agreement and Application.

AssetMark also offers asset allocation and related investment advisory services to retirement plan participants of 403(b) plans for which Fidelity Institutional Wealth Services or TIAA CREF is an authorized provider under the participant’s retirement plan. AssetMark’s asset allocation and related investment advisory services are limited to the investment options that are made available in the participant’s retirement plan by the plan sponsor. LFS, through its IARs, will assist the retirement plan participant in selecting AssetMark to provide investment advisory services, and in determining which, if any, of the asset allocation models provided by AssetMark are appropriate in light of the plan participant’s financial goals, risk tolerance, and investment time horizon, and other relevant factors. The respective roles and responsibilities of all parties, including acknowledgements of fiduciary status under ERISA, as applicable, are set forth in the service agreements and related documents executed by clients electing these services, including the AssetMark Retirement Services Division Client Services Agreement and Application.

Additional information regarding the services that AssetMark provides through its Retirement Services division, including important information about fees, risks, and conflicts of interest, can be found in the AssetMark Retirement Services Form ADV, Part 2A, which is available on the SEC’s website at www.adviserinfo.sec.gov. Clients interested in these services are

encouraged to review the AssetMark Retirement Services Form ADV, Part 2A, the AssetMark Retirement Services Division Client Services Agreement and Application, and all other service agreements and related documents and disclosures in detail before making any investment decisions.

Morningstar Investment Services LLC

LFS offers clients the Morningstar® Managed PortfoliosSM Program sponsored by Morningstar Investment Services, LLC (“MIS”). This investment advisory program includes access to mutual fund asset allocation and focused strategy portfolios (“Mutual Fund Portfolios”), ETF strategy portfolios (“ETF Portfolios”), and select stock basket strategy portfolios (“Stock Portfolios”). MIS imposes minimum investment requirements for its programs and those minimum investment requirements may be modified, waived, or negotiated at MIS’s discretion. Clients will sign an investment management agreement giving MIS discretionary authority to buy and sell mutual funds, ETFs, stocks, and other securities, as appropriate, in order to invest and manage the client’s assets based on the client’s selected portfolio and any restrictions. Rebalancing will typically occur quarterly and reallocation will occur as frequently as MIS considers necessary.

Orion Portfolio Solutions, LLC (d/b/a Brinker Capital Investments)

Orion Portfolio Solutions, LLC (“Orion”) provides discretionary and non-discretionary investment management services to meet the needs of individual clients. Orion offers various model portfolio and asset allocation programs that utilize various investment vehicles, including separate account managers, stocks, bonds, mutual funds (including both Orion-affiliated and unaffiliated mutual funds), ETFs, real estate investment trusts, master limited partnerships, variable annuity subaccounts, and/or other securities and investment products. Additionally, Orion offers a customized separately managed account platform, which may also include privately placed or publicly traded pooled investment vehicles (such as hedge funds, mutual funds, and exchange-traded products). Orion imposes minimum investment requirements for its programs and those minimum investment requirements may be modified, waived, or negotiated at Orion’s discretion.

Symmetry Partners, LLC

Symmetry Partners, LLC (“Symmetry”) provides discretionary investment management services to meet the needs of individual clients. Symmetry creates and maintains model portfolios using mutual funds and/or ETFs. Symmetry imposes minimum investment requirements for its programs and those minimum investment requirements may be modified, waived, or negotiated at Symmetry’s discretion.

City National Rochdale, LLC

City National Rochdale, LLC (“City National Rochdale”) provides discretionary investment management services to meet the needs of individual clients with portfolios of \$1 million and above. City National Rochdale creates model portfolios or provides individualized management services utilizing stocks, bonds, options, mutual funds, ETFs, and other securities. City National Rochdale imposes minimum investment requirements for its programs and those minimum investment requirements may be modified, waived, or negotiated at City National Rochdale’s discretion.

Flexible Plan Investments, Ltd.

Flexible Plan Investments, Ltd. (“Flexible Plan”) provides discretionary investment management services to meet the needs of individual clients. Flexible Plan’s services encompass various strategies with differing objectives to enable clients to receive personalized investment management utilizing mutual funds, ETFs, and/or variable annuity subaccounts. Flexible Plan imposes minimum investment requirements for its programs and those minimum investment requirements may be modified, waived, or negotiated at Flexible Plan’s discretion.

The Pacific Financial Group, Inc.

The Pacific Financial Group, Inc. (“Pacific”) provides discretionary and non-discretionary investment management services to meet the needs of individual clients. Pacific offers and maintains model portfolios containing mutual funds and ETFs,

and/or Pacific's separately managed accounts. Pacific imposes minimum investment requirements for its programs and those minimum investment requirements may be modified, waived, or negotiated at Pacific's discretion.

Limited Arrangements

LFS offers other TAMP or asset management programs in addition to those listed above on a limited basis. This may occur when a financial professional joins LFS and was using another firm for asset management services at their prior firm, or where there is another unique need that isn't met by the other TAMP programs that LFS offers. This may also occur when LFS has historical or legacy TAMP or asset manager arrangements but has not yet closed the programs and required clients to move to new programs.

For detailed information on each of these TAMP programs, including detailed information regarding the services offered through the TAMP program, each party's responsibilities in connection with the TAMP program, applicable investment minimums, the investment advisory and other fees, costs, and expenses you will incur, the TAMP sponsor's and investment managers' conflicts of interest, and other important matters, please refer to your account-opening documentation (including your client agreement) and the applicable investment adviser's or TAMP program's Form ADV, Part 2A, which is available from your IAR and on the SEC's website at www.adviserinfo.sec.gov, and will be provided to you at or before account opening.

FINANCIAL PLANNING SERVICES

IARs provide financial planning services through a written financial planning agreement. Planning is focused on specific areas and is based upon each client's individual financial situation and personal and/or business objectives. The degree of detail and sophistication of the financial planning services provided varies according to the individual client's circumstances. Each client is provided with a written summary of the work undertaken in electronic or hard copy format. Plans are usually completed within six months of the agreement date, though more complex planning work may take longer to complete.

LFS's planning services are advisory only. Any information you receive from LFS or the IARs relating to the tax considerations affecting your financial arrangements or transactions is not intended to be tax advice and you should not rely upon it as tax advice. Neither LFS nor the IARs provide tax, legal, or accounting advice, or other professional services.

Through meetings and discussions with your IAR, your IAR will gather the information necessary to understand your financial situation and objectives. The information gathered will include, among other things, your current financial status, future goals and objectives, and attitudes towards risk. Once this information, any requested financial records, and other relevant documents are received, your IAR will analyze your financial data and make observations based upon your current financial circumstances. Your IAR will identify financial challenges you may be facing, recommend specific financial planning strategies for your consideration, and summarize those observations and recommendations in an electronic or hard copy written report. Your financial plan will address one or more of the following areas:

Personal Financial Planning

- ***Estate Planning Strategies.*** Your IAR will provide advice to enable you to make informed decisions with respect to property ownership, distribution of assets, estate tax reduction strategies, tax payment, and related matters. Based on your current situation and your future goals, your IAR will review your estate plan, discuss planning techniques, and suggest alternative strategies when appropriate. Where relevant, the planning process will include a discussion of gifting, trust implementation, wills, the disposition of business interests, and related matters. Tax consequences and their implications are also identified and evaluated; however, clients should consult with their tax advisors to discuss the tax consequences of any estate planning strategy they intend to implement.
- ***Retirement Planning.*** The retirement planning process includes an analysis of your current situation, a written discussion about alternative retirement planning strategies, and techniques that can be used to assist you in accumulating wealth for retirement income, or in the appropriate distribution of assets following retirement. Tax

consequences and their implications are also identified and evaluated; however, clients should consult with their tax advisors to discuss the tax consequences of any retirement planning strategy they intend to implement.

- ***Investment Planning.*** During the investment planning process, your IAR evaluates your existing investments, analyzes your current economic circumstances and tax characteristics, and reviews your risk tolerance. This process includes an analysis of your current asset allocation and investment income. Tax consequences and their implications are also identified and evaluated; however, clients should consult with their tax advisors to discuss the tax consequences of any investment planning strategy they intend to implement. Once your current situation has been reviewed, your IAR will recommend strategies and investment techniques for your consideration. The strategies and techniques recommended are designed to assist you with the selection of an appropriate asset allocation and investment strategy in light of your investment objectives. The strategies and techniques outlined in your financial plan are designed to assist you in pursuing your stated investment goals at an appropriate risk level for you.
- ***Education Planning.*** The education planning process includes a definition of your objectives for family educational needs and a written analysis of potential ways to help fund those objectives. This includes strategies designed to help minimize negative tax implications, not only in the accumulation phase, but also in the distribution phase; however, clients should consult with their tax advisors to discuss the tax consequences of any education planning strategy they intend to implement.
- ***Risk Management.*** The risk management planning process includes an evaluation of the impact of a potential premature death, disability, or long-term care event on your family's financial situation. A written analysis defining your objectives, as well as the potential financial implications of adverse circumstances, is provided, along with recommendations of techniques that may help you meet your objectives while mitigating risk. This may include not only planning strategies, but product type/class considerations as well.

Business Owner Financial Planning

- ***Business Succession Planning.*** The business succession planning process includes an analysis of the current state of your business, as well as your goals for the future of your business. Once the current state of your business and your future goals are determined, your IAR will provide alternatives and strategies addressing the continuity or disposition of your business upon your retirement, death, disability, or decision to sell. Tax consequences and their implications are also identified and evaluated; however, clients should consult with their tax advisors to discuss the tax consequences of any business succession planning strategy they intend to implement.
- ***Executive Compensation Planning.*** The focus of executive compensation planning is the analysis and recommendation of various compensation strategies to attract, retain, and reward key employees of the business. This planning may also include the business owner. Objectives of the business owner and the financial structure of the business will be reviewed and considered in the analysis and recommendations. Tax consequences and their implications are also identified and evaluated; however, clients should consult with their tax advisors to discuss the tax consequences of any executive compensation planning strategy they intend to implement.
- ***Entity Planning.*** The entity planning process begins with a review of the type(s) of entity(ies) you have elected for your business operations, including sole proprietorships. Understanding your short-, mid-, and long-term goals for the business and your succession or exit goals are an important factor as well. Together with your other advisors, your IAR will provide alternatives that may help you achieve your goals more effectively than your current situation, or they may confirm that your current elections are most appropriate. Tax consequences and their implications may also be identified and evaluated; however, clients should consult with their tax advisors to discuss the tax consequences of any entity planning strategy they intend to implement.
- ***Employee Benefits Planning.*** The employee benefits planning process begins with a review of your current benefit offerings to your key people, executives, and/or your entire employee population. Understanding your short-, mid- and long-term goals for the business and your succession or exit goals are an important factor as well. Your business cash flow, ability to maintain certain funding requirements, and other factors will be evaluated. Together with your

other advisors, your IAR will provide alternatives that may help you achieve your goals more effectively than your current situation, or they may confirm that your current plans are most appropriate. Tax consequences and their implications may also be identified and evaluated; however, clients should consult with their tax advisors to discuss the tax consequences of any employee benefits planning strategy they intend to implement.

- ***Executive Financial Planning.*** LFS enters into agreements with businesses and other associations to provide financial planning services to their executives, partners, members, directors, and other personnel. In these instances, each individual will be provided with a personal financial plan as described above. Fees charged are calculated based on the same criteria as the personal financial planning fees described in the Financial Planning Fees section below. Fees generally are paid by the business or association on behalf of its personnel.
- ***Nonqualified Deferred Compensation Financial Planning.*** LFS also offers nonqualified deferred compensation financial planning services. For a nonqualified deferred compensation program, the analysis contains alternative methods to informally “fund” the program, including an overview of the accounting treatment of these methods, and a recommendation on the appropriate method of “funding” the program. The plan will be summarized in a written document delivered to you in electronic or hard copy format and will reflect your current situation and an analysis of alternative ways to accomplish your objectives. Clients should consult with their tax advisors to discuss the tax consequences of any nonqualified deferred compensation planning strategy they intend to implement.

LFS, through the IARs, will deliver a written financial analysis and plan to the client in hard copy or electronic format and will contact the client for a review of the plan. After this review, LFS’s and its IARs’ obligations and responsibilities as it relates to the financial planning services being provided to the client shall terminate. Any necessary updates to the financial analysis and plan, or execution or implementation of the recommendations made in the plan, shall be at the sole discretion of the client. LFS and its IARs will be under no obligation to update the financial analysis and plan or to monitor changes in the client’s financial circumstances, investments, or insurance in connection with the financial analysis and plan services unless the client renews their financial planning agreement as described below.

Renewal Plans

After your initial financial planning agreement with LFS is completed, you may request, or your IAR may suggest, that your planning agreement be renewed for purposes of updating your financial plan, in whole or in part. The type of financial planning to be done in connection with any renewal will be agreed upon at the time of the renewal and will be memorialized in the renewal invoice and/or other documentation you receive from LFS and your IAR in connection with your renewal. The areas to be covered in any renewal may or may not be the same as the areas covered in your initial financial plan. In connection with renewals, your IAR will analyze current data you provide, prepare an updated written summary (in electronic or hard copy format) reflecting your current financial circumstances, and, where appropriate, recommend updated strategies for your consideration.

Other Types of Planning Services

Client Consultation Services

Consultation services are more limited than the services included with a full financial plan and may be limited to an isolated issue or specific area of concern. Consultation services are offered to clients who want general investment advice or guidance, including advice or guidance relating to one or more of the following areas:

- A review of the client’s current investment portfolio and a discussion of a generic asset allocation not involving any specific investment recommendations; or
- A review of a new or current issue regarding one or more of the following areas: estate planning strategies, retirement planning, investment planning, business succession planning, education planning, or risk management.

Your IAR will carefully review all relevant materials pertaining to your specific consultation. Your IAR will then provide a consultation that reflects your current financial circumstances, financial outlook, and personal and/or business objectives.

The consultation services provided by your IAR are limited to the advice given and the information discussed during the single consultation and any related follow up, and do not require your IAR to develop or provide an in-depth financial plan. If you would like a detailed financial plan, you should consider entering into a financial planning relationship with LFS as described above.

Executive Consulting Services

LFS enters into agreements with businesses and other associations to provide consultation services to their executives, partners, members, directors, and other personnel. In these instances, each individual will be provided with a consultation as described above. Fees charged are calculated based on the same criteria as the client consultation fees described in the Consultation Fees section below. Fees generally are paid by the business or association on behalf of its personnel.

Consulting Subscription Services

Consulting subscription services are more limited than the services included with a full financial plan. With consulting subscription services, clients have the ability to engage LFS and its IARs to provide general investment advice and guidance regarding estate planning strategies, investment planning, retirement planning, risk management, education planning, business succession planning, and/or other financial matters, as applicable, over the course of a set subscription term of up to 24 months. During the term of a subscription agreement, clients will receive a minimum of two substantive consultations during each 12-month period of the term of their subscription agreement (the minimum substantive consultation obligations will be prorated for subscription periods of less than 12 months) that will allow LFS and its IARs to, among other things: (i) ensure they understand the client's current financial circumstances, objectives, and needs and, if necessary, obtain any relevant documentation; (ii) provide general investment advice and guidance regarding key financial matters the client would like to address during the term of their subscription agreement; and (iii) provide timely investment advice and guidance regarding current matters impacting the client's financial life. Additionally, all consulting subscription clients have reasonable access to their IAR throughout the term of their subscription agreement that will allow them to seek additional timely investment advice and guidance from their IAR regarding significant financial decisions, significant life events, financial concerns, or other important matters impacting their financial life. The terms of subscription agreements entered into prior to the date of this Brochure will in certain circumstances vary from the information described above. Existing consulting subscription clients should refer to their subscription agreements for definitive information regarding the terms of their consulting subscriptions.

The consulting subscription services provided by your IAR are limited to the general investment advice and guidance given during each consultation conducted during the term of your subscription agreement and do not require your IAR to develop or provide an in-depth financial plan. If you would like a detailed financial plan, you should consider entering into a financial planning relationship with LFS as described above. Additionally, subscription agreements do not require LFS or your IAR to continuously monitor your financial circumstances, objectives, or needs; your accounts with LFS or other financial services firms; or the securities and other products you purchase and hold in such accounts. Further, subscription agreements do not require LFS or your IAR to provide any other oversight or ongoing asset management or portfolio management services, including security or other investment product recommendations or selections, with respect to your accounts with LFS or other financial services firms or the securities and other products you purchase and hold in any such accounts. If you would like LFS to provide you with account monitoring, account oversight, or ongoing asset management or portfolio management services, you should speak with your IAR regarding LFS's fee-based investment advisory programs and services.

Seminars

LFS provides seminars to groups of employees and associates and other organized groups. The seminars focus on various areas of financial planning, such as estate planning strategies, investment planning, retirement planning, business succession planning, education planning, and risk management. Seminars are held on a negotiated fee basis. The generalized investment information provided during seminars is not intended to meet the objectives of any individual client or seminar attendee.

Implementation of Financial Planning Advice

The services included in the planning and consultation processes are limited to recommending strategies for the client to consider. Clients are in no way obligated to implement any recommendations and are not obligated to do so through LFS or an IAR. The implementation of any recommended strategies is entirely at the client's discretion. The recommendations provided by IARs may be implemented through LFS, its affiliates, or other financial services providers. We cannot guarantee future financial results or the achievement of your financial goals through implementation of recommendations provided to you. LFS does not monitor the day-to-day performance of your specific investments as part of its financial planning or consultation services. Before implementing any recommendations, you should carefully consider the risks, costs, and potential benefits of purchasing particular products or services, and you are encouraged to seek further advice from your attorney, tax specialist, accountant, and other professional advisors, particularly in connection with estate planning strategies, tax matters, and business owner planning issues.

In addition to providing financial planning and consultation services to clients, IARs separately offer securities, insurance products, and other investment products and services issued or managed by other Lincoln Financial Group affiliates, as well as securities, insurance products, and other investment products and services of unaffiliated firms. To minimize conflicts of interest between the IARs' roles in the sale of securities, insurance products, and other investment products and services, financial plans and client consultations contain only generic recommendations regarding general types of securities, insurance products, and other investment products. In the financial planning and consultation processes, IARs do not make recommendations regarding the purchase or use of specific securities, insurance products, or other investment products or services.

If a client chooses to implement the advice they receive in a financial plan or consultation through LFS, the client's LFS financial professional will be acting as a salesperson in the sale of securities, insurance products, and other investment products and may provide separate investment advisory services in connection with the management of client assets. A client who makes the decision to implement planning or consultation recommendations through LFS and its financial professionals will have access to a broad portfolio of securities, insurance products, and other investment products. Insurance products may include life insurance, disability insurance, and annuity products manufactured by Lincoln Financial Group companies and unaffiliated companies. Securities and other investment products accessible through LFS and its financial professionals are restricted to products approved for sale by LFS. LFS, in its role as a registered investment adviser, also offers a variety of asset management programs and services.

RETIREMENT PLAN CONSULTING PROGRAM

LFS offers various retirement plan consulting services that are designed to assist sponsors ("Sponsors") of employer-sponsored retirement plans ("Plans") and Plan participants and beneficiaries (collectively, "Retirement Plan Services"). LFS provides Retirement Plan Services through IARs and charges fees for Retirement Plan Services as described in this Brochure and LFS's Retirement Plan Consulting Agreement (the "Agreement").

LFS provides Retirement Plan Services through both transaction-based client engagements and fee-based client engagements. For transaction-based client engagements, IARs only provide point-in-time recommendations on the sale of retirement plan products and other point-in-time services. For fee-based client engagements, IARs may offer ERISA fiduciary investment advice regarding the Plan's Designated Investment Alternatives ("DIAs" or more commonly known as the Plan's "fund lineup") and Qualified Default Investment Alternative ("QDIA"), along with other services to Plans, Sponsors, and Plan participants. In certain limited arrangements as agreed to in writing between a Sponsor and LFS, LFS may also provide Plan participants with limited point-in-time advice.

When providing Retirement Plan Services to a Plan and/or Sponsor, LFS will solely be making recommendations to the Sponsor and the Sponsor retains full discretionary authority and control over the Plan's assets. When providing Retirement Plan Services to a Plan participant, LFS will solely be making recommendations to participant and participant retains full discretionary authority and control over assets of the participant's account. Sponsor may engage LFS to perform Retirement Plan Services by providing information about the Plan, including, but not limited to, the Plan design, Plan objectives, investment objectives, investment risk tolerance, demographics about Plan participants, and information about the Plan's third-party service providers, and by executing an Agreement. LFS will provide Sponsor a current copy of this Brochure

and the Agreement for review. The Agreement describes the terms of the arrangement between LFS and Sponsor, including a description of the Retirement Plan Services to be provided and the fees to be charged by LFS. By signing the Agreement, Sponsor represents that Sponsor has received sufficient information and determined that the Retirement Plan Services selected are: (i) necessary for the operation of the Plan and (ii) reasonable and appropriate taking into account the compensation to be paid to LFS and IARs for the Retirement Plan Services and their related conflicts of interest. Sponsor must sign and submit the Agreement to LFS before LFS performs any Retirement Plan Services.

When LFS and your LFS financial professional provide investment advice to you on a regular basis regarding your ERISA retirement plan account or IRA, LFS and your LFS financial professional are fiduciaries within the meaning of Title I of ERISA and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts.

LFS currently offers the following Retirement Plan Services:

Sponsor Services

Educating and Supporting Plan Fiduciary/Committee. IAR will educate the Sponsor or other applicable plan fiduciary (the “Plan Fiduciary”) on considerations relevant to reviewing and/or establishing the Plan committee and/or protocols designed to help the Plan Fiduciary establish processes and governance to prudently manage and administer the Plan. The Plan Fiduciary is solely responsible for appointing or removing Plan committee members and for determining the policies and procedures for management and oversight of the Plan. IARs may provide training to Plan Fiduciary and/or Plan committee members about their fiduciary duties upon reasonable request and help the Plan committee coordinate regular meetings. Upon reasonable request, IARs may educate the Plan Fiduciary and Plan committee regarding the Plan’s structure, metrics, services, and expenses as compared to similar retirement plans (e.g., participation rates, employer contributions, vesting time frames, loan availability, etc.). The Plan Fiduciary will retain decision-making authority with respect to the structure and features of the Plan. IARs may also update the Plan Fiduciary about current and proposed regulatory and legislative initiatives, and the potential impact to the existing procedures for the operation and oversight of the Plan.

Periodic Review of the Plan’s Investment Policy Statement (“IPS”). IAR will periodically review the Plan’s IPS as provided by the Plan Fiduciary in the context of Plan objectives. IAR will assist the Plan Fiduciary in establishing governance related to the Plan’s investment policies and IPS. IAR may educate the Plan Fiduciary about investment theories including investment objectives, risk return characteristics, historical return, and prospectus information on investment alternatives available through the Plan’s provider, which the Plan Fiduciary may use in developing and/or updating the Plan’s IPS. The Plan Fiduciary retains decision-making authority with respect to the terms and conditions of the IPS.

Advice Regarding the Plan’s DIAs and QDIA. Based on the Plan’s IPS or other guidelines established by the Plan, IAR will review the investment options available to the Plan and will make recommendations to assist the Plan Fiduciary with respect to selecting the DIAs to be offered to Plan participants, and with respect to selecting or replacing the QDIA. Once the Plan Fiduciary selects the DIAs and QDIA, IAR will, on a periodic basis and/or upon reasonable request, provide reports, information, and recommendations to assist the Plan Fiduciary in fulfilling the Plan Fiduciary’s duty to monitor the Plan’s investments. If the Plan Fiduciary elects to remove a DIA, IAR will provide information, analysis, and recommendations to assist the Plan Fiduciary with the evaluation of replacement investment alternatives. The Plan Fiduciary retains decision-making authority to select, remove, and/or replace Plan investments.

Point-in-Time Review and Monitoring Support of the Plan’s Investment Product Selection, DIAs, and/or QDIA. Based on the Plan’s IPS or other guidelines established by the Plan as provided to the IAR, the IAR will review the investment product(s) available to the Plan and may make one-time, point-in-time recommendations to the Plan Fiduciary with respect to selecting the investment product(s). The IAR may also provide one-time, point-in-time assistance to the Plan Fiduciary in selecting the initial list of DIAs (commonly referred to as the Plan’s investment lineup) to be offered to Plan participants, and the selection of the QDIA. Once the Plan Fiduciary selects the investment product(s), DIAs, and QDIA, IAR may, on a periodic basis and/or upon reasonable request, provide reports and information to assist the Plan Fiduciary with monitoring the DIAs. The Plan Fiduciary retains decision-making authority to select, remove, and/or replace Plan investment products, DIAs, and the QDIA.

Assisting With Plan Service Provider Evaluation, Selection, and Oversight Processes. IAR may assist the Plan Fiduciary with establishing a process to evaluate, select, and monitor the Plan's service providers. IAR may use third-party tools and publicly available data to assist the Plan Fiduciary with benchmarking the fees charged by a service provider. The Plan Fiduciary retains decision-making authority to select, remove, and/or replace the Plan's service providers. These services may include any of the following:

- IAR may assist the Plan Fiduciary in establishing procedures to track the receipt of and evaluate disclosures provided by "covered" service providers under Section 408(b)(2) of ERISA;
- IAR may assist the Plan Fiduciary with creating formal requests for proposals from prospective service providers; collecting, evaluating, and analyzing the responses; and coordinating final interviews and presentations;
- IAR may assist Plan Fiduciary with converting, dissolving, or merging Plans, or changing one or more service providers with respect to a Plan; and/or
- IAR may act as a liaison with the Plan's third-party service providers on behalf of Plan Fiduciary.

Point-in-Time Review and Monitoring Support of Third-Party Investment Managers and Investment Advice Providers. Based on the Plan's IPS or other investment guidelines established by the Plan and provided to the IAR, the IAR will review the third-party investment managers and investment advice providers, including service providers designated as "3(21)" and "3(38)" fiduciary service providers, available to the Plan and may provide point-in-time assistance to the Plan Fiduciary in selecting a third-party adviser or investment manager to advise on and/or manage some or all of the Plan's DIAs, QDIA, or other Plan investments. Once the Plan Fiduciary selects one or more investment managers or investment advisers, IAR may provide reports and information, on a periodic basis or upon reasonable request, to assist the Plan Fiduciary with monitoring the third-party advisers or investment managers. The Plan Fiduciary will retain final decision-making authority with respect to the third-party advisers and investment managers used in connection with the Plan.

Participant Services

Facilitate Group Enrollment Meetings and Participant Investment Education. IAR will conduct periodic group enrollment and educational meetings with employees and educational meetings with Plan participants and beneficiaries. IAR may provide information and materials that inform a participant or beneficiary about the benefits of Plan participation, the benefits of increasing Plan contributions, the impact of pre-retirement withdrawals on retirement income, the terms of the Plan, including the Plan's service fees and expenses, or the operation of the Plan. IAR may also provide educational information concerning the Plan's DIAs (the Plan's investment lineup), such as general descriptions of various asset classes, investment objectives and philosophies, risk and return characteristics, historical return information, and may refer the participants and beneficiaries to the prospectuses of the Plan's DIAs. IAR may also provide information and materials that inform a Plan participant or beneficiary about: (i) general financial and investment concepts, such as risk and return, diversification, dollar cost averaging, compounded return, and tax deferred investment; (ii) historical differences in rates of return between different asset classes (e.g., equities, bonds, or cash) based on standard market indices; (iii) effects of inflation; (iv) estimating future retirement income needs; (v) determining investment time horizons; and (vi) assessing risk tolerance. The information and materials described above relate to the Plan and Plan participation, without reference to the appropriateness of any specific DIA for a particular participant or beneficiary under the Plan or are general financial and investment information that have no direct relationship to the Plan's DIAs. In conducting this service, IARs will not provide Plan participants or beneficiaries with "investment advice" as that term is defined under ERISA.

Assist Participants with Financial Wellness Education, Retirement Readiness, and/or Gap Analysis. IAR may conduct group meetings with Plan participants and beneficiaries to provide information about how to assess their retirement income needs. Using tools available through the Plan or approved third parties, IAR will help Plan participants and beneficiaries conduct "gap" analyses to determine whether their current investment objectives and savings rates are sufficient to provide for future income needs during retirement. IAR may help Plan participants and beneficiaries create retirement income plans. The information and materials described above relate to the Plan and Plan participation, without reference to the appropriateness of any specific DIA for a particular participant or beneficiary under the Plan or are general financial and investment information that have no direct relationship to the Plan's DIAs.

Participant Investment Advice. IAR will meet individually with a Plan participant upon reasonable request by such Plan participant to collect information necessary to identify the participant's investment objectives, risk tolerance, time horizon, and other pertinent information. IAR will provide investment advice to assist the participant with investing the participant's assets held in the Plan, using the investment products available to the Plan, the Plan's DIAs, model portfolios available in the Plan, if any, or in selecting one or more investment managers available through the Plan. Unless otherwise agreed upon in writing, all investment advice will be as of the point in time at which such investment advice is given, and the IAR will have no ongoing duty or obligation to monitor the participant's account. Unless the participant grants trading authority to IAR, an investment manager, or another party through a separate written document, participant will retain sole discretion over the investment of participant's account.

Potential Additional Retirement Services Provided Outside of the Agreement with the Sponsor

In providing Retirement Plan Services, LFS and its IARs may establish a client relationship with one or more Plan participants or beneficiaries. Such client relationships develop in various ways, including, without limitation: (i) as a result of a decision by the participant or beneficiary to purchase services from LFS not involving the use of Plan assets; (ii) as part of an individual or family financial plan for which any specific recommendations concerning the allocation of assets or investment recommendations relate exclusively to assets held outside of the Plan; or (iii) through an IRA rollover. If LFS is providing Retirement Plan Services to a Plan, IARs may, when requested by a Plan participant or beneficiary, arrange to provide services to that participant or beneficiary through a separate agreement that excludes any investment advice on Plan assets (but may consider the participant's or beneficiary's interest in the Plan in providing that service). If a Plan participant or beneficiary desires to effect an IRA rollover, LFS may provide the participant or beneficiary with a written explanation of the options available to the Plan participant or beneficiary. Any final decision to effect the IRA rollover or about what to do with the IRA rollover assets remains that of the participant or beneficiary.

LFS and its affiliates provide securities brokerage, recordkeeping, and other Retirement Plan Services to Plans and receive variable compensation for those services. LFS has a conflict of interest when it recommends its Retirement Plan Services and those of its affiliates because LFS, its employees, and its IARs benefit from the compensation paid to LFS and directly or indirectly receive all or a portion of the fees and other compensation paid by Retirement Plan Services clients. Those clients may also use other products and services available from or through LFS and in such cases will pay additional compensation, which is shared between LFS and the IARs. This practice creates a conflict of interest that gives LFS and its IARs a financial incentive to recommend Retirement Plan Services based on the compensation they receive, rather than on a client's needs. Additionally, fees and commissions are higher for some products, services, accounts, and Retirement Plan Services, and the compensation and profitability to LFS, its IARs, and their affiliates from some products, services, accounts, and Retirement Plan Services are greater than the compensation and profitability resulting from other available products, services, accounts, and Retirement Plan Services. This creates a conflict of interest for LFS and its IARs given their financial incentive to recommend that clients use the products, services, accounts, and Retirement Plan Services that generate the highest rate and amount of compensation and profitability to them, rather than other available products, services, accounts, and Retirement Plan Services that generate relatively lower or no compensation and profitability for them. LFS addresses these conflicts of interest by, among other things, disclosing them to you.

As part of LFS's service of providing recommendations regarding the selection and monitoring of investment managers, QDIAs, or DIAs, LFS may provide a Sponsor with a list of investments, including mutual funds, to consider as options for the Plan, and may provide a list of investment managers to manage the assets of the Plan. The Sponsor retains full decision-making authority with respect to the selection of all Plan investments and investment managers. LFS will consider information provided by the Sponsor about the Plan when assisting with or making recommendations about the Plan's IPS. It is important that information provided by Sponsor be complete, accurate, and current. Changes in the information will impact what assistance or recommendations may be made, so it is important that LFS and IARs be accurately and timely informed of any information that may be relevant to the Plan, as well as changes to previously provided information.

All investments involve material risk and investment performance can never be predicted or guaranteed. The values of Plan accounts will fluctuate (perhaps significantly) due to market conditions, manager performance, and various other factors. Using any benchmark or index in connection with the Retirement Plan Services is no promise or guarantee that the performance of the Plan's particular investments will experience the same results, including the results shown on the various reports that are delivered as part of the Retirement Plan Services. The Sponsor or Plan participants and beneficiaries retain

all investment discretion over Plan assets. Each is free to make their own investment decisions. No one is required to accept any assistance or follow any recommendations provided by LFS or IARs as part of the Retirement Plan Services. If the Plan adopts LFS's and its IARs' recommendations regarding the allocation or rebalancing among model portfolios or recommendations of investment managers, the responsible Sponsor or Plan participant or beneficiary can freely change allocations or managers. LFS uses and may provide to Sponsor data or information provided by third parties when providing Retirement Plan Services. While LFS reasonably believes that the information or data it receives from these third parties is reliable, it does not promise that it is accurate, current, or consistently available. Sponsor is responsible for all tax liabilities arising from any transactions, including any liabilities arising from the failure to maintain the qualified status of a Plan receiving Retirement Plan Services.

Any report containing a proposed asset allocation model is based upon a number of factors, which may include the demographics of Plan participants, current asset allocations, and the value of the assets. LFS may change asset allocations and investment options within the model portfolios and has no obligation to revise the report or otherwise advise Sponsor if a model or any of LFS's assumptions change in the future. The analyses and suggested asset allocations contained in the reports may be based on historical financial data, assumptions about future financial trends (including market appreciation or decline, rates of return and risks for various asset classes), assumptions about applicable laws and regulations, and appropriate financial planning strategies. Any analyses or other information contained in or with the reports regarding various investment outcomes are not guarantees of future results. The reports do not provide advice regarding the Plan's specific securities or other investments. Therefore, it is important for the Sponsor to monitor current events, such as changes in tax laws and in the financial markets, which may affect the Sponsor's decisions about the Plan. The return rates and dollar figures contained in reports may not include all applicable investment or other fees, costs, or expenses; thus, any results shown will be reduced by such fees, costs, and expenses. Also, assumptions as to federal income tax rates, state income tax rates, and estate taxes reflected in reports are general estimates, unless otherwise indicated.

Item 5: Fees and Compensation

CLIENT ADVISORY FEES FOR THIRD-PARTY ASSET MANAGEMENT PROGRAMS

Some of the TAMP programs described in this Brochure charge an "all-inclusive" bundled fee based on the value of the assets in your account. This bundled fee usually includes a portfolio management fee, transaction, trading, and execution costs, and investment advice and is sometimes referred to as a "wrap fee." However, this bundled fee does not include costs associated with transactions that are executed at broker-dealers other than the one at which your account is held. Transactions executed at broker-dealers other than the one at which your account is held are sometimes called "step-out" trades and are described further below. Fees vary depending on which TAMP programs and services you use. Fees are billed either in arrears (*i.e.*, following the completion of the applicable billing period) or in advance (*i.e.*, at the beginning of the applicable billing period) depending on the TAMP program you select and the terms of your client agreement and other account-opening documentation. Fees typically are charged either monthly or quarterly, as specified in your client agreement and other account-opening documentation, based on the assets held within your account for services including, but not limited to, ongoing investment advice, investment selection and recommendations, asset allocation, execution of transactions (depending on the program you are in), custody of securities, and account reporting services. In some TAMP programs, the fees a client pays are based upon the market value of the assets held in the client's account as of the last business day of the applicable calendar month or quarter, as applicable. In other TAMP programs, the fee is calculated based on the average daily balance of the account in the applicable month or quarter, as applicable. LFS's advisory fees in connection with TAMP programs generally are negotiable. Some TAMP programs charge an "unbundled" fee and, in these cases, the client will pay separate fees for asset management services, transaction, trading, and execution services, and investment advice. Applicable fees, costs, and expenses are described in detail in the applicable TAMP program's Form ADV, Part 2A and in applicable client agreements and other account-opening documentation. Clients should review those documents for each of the TAMP programs described in this Brochure for a detailed description of, among other things, applicable fees, costs, and expenses, fee calculation methodologies, and termination provisions, and should address any questions they may have with their IAR before proceeding.

Investment advisory fees in connection with TAMP programs generally are negotiable and will typically be debited from the client's account by the TAMP program's custodian. Fees charged vary by LFS office and by IAR, and certain IARs provide comparable or identical services for fees that are different from those charged by other IARs. In all instances, IARs

are only permitted to charge fees within a range set by LFS and/or the TAMP program sponsor. In TAMP programs that use portfolio managers, a portion of the total fee up to 1.50% of assets under management will be paid to the portfolio manager for their services. The amount varies by TAMP program and portfolio manager and is described in detail in the Form ADV, Part 2A, client agreement, and other account-opening documentation for the applicable TAMP program and/or portfolio manager.

TAMP program client agreements to which LFS is a party may generally be terminated at any time, by either party, for any reason on 30 days prior written notice to the other party. Upon termination, and unless otherwise specified in the applicable TAMP program's client agreement, any prepaid, unearned fees will be refunded to the client, and any unpaid fees will be due and payable to LFS and/or the other parties to the client agreement. The methodology used in calculating account fees and applicable reimbursements, if any, will be specified in the client's client agreement and other account-opening documentation. Specific TAMP program client agreements have different fee, termination, and other provisions, and clients should refer to their specific TAMP program's client agreement and other account-opening documentation for complete information regarding their, LFS's, and other parties' rights and obligations in connection with the TAMP program. Should you have any questions regarding the terms of your TAMP program's client agreement or other account-opening documentation, please contact your IAR before proceeding.

The following are general descriptions of the fees charged in connection with certain of the most significant TAMP programs currently being offered to LFS clients. These general descriptions are provided for informational purposes only and are not intended to replace or fully summarize the detailed fee information provided in your TAMP program's Form ADV, Part 2A, client agreement, and other account-opening documents, which provide definitive information regarding the investment advisory and other fees, costs, and expenses you will incur in connection with the TAMP program. Additionally, these general descriptions are not binding on any TAMP sponsors or programs. As a result, you should rely on the detailed, definitive fee information provided in your TAMP program's Form ADV, Part 2A, client agreement, and other account-opening documentation when evaluating the fees, costs, and expenses you will incur in connection with the TAMP program and deciding whether to participate in the TAMP program. Each TAMP program's Form ADV, Part 2A is available from your IAR and on the SEC's website at www.adviserinfo.sec.gov, and will be provided to you at account opening along with your TAMP program's client agreement and other account-opening documentation. After reviewing these documents, you should address any questions you may have with your IAR before proceeding.

SEI Program Fees and Compensation

LFS and IARs, in connection with the performance of their respective services in connection with the SEI programs, are entitled to and share in the advisory fees payable by the client. The advisory fees that IARs charge in connection with the SEI programs and strategies are negotiable and are based on the schedule below, which is established by LFS. In no event will all asset-based fees and charges to the client (including those charged by LFS, the IAR, SEI, and specific managers, but excluding internal expenses of mutual funds and other investment products) exceed 3% per annum.

<u>Portfolio Value</u>	<u>Maximum LFS Advisory Fee</u>
Up to \$500,000	2.00%
Next \$500,000	1.75%
Next \$1 million	1.50%
Over \$2 million	1.25%

The advisory fee is negotiable and is payable either monthly or quarterly in arrears (*i.e.*, following the completion of the applicable billing period) as described in the client's client agreement and other account-opening documentation. All advisory fees are deducted from the client's account pursuant to the client agreement unless other arrangements have been made in writing. All such fees and charges are clearly noted on client statements issued by SEI.

Please carefully review the account opening paperwork you receive from SEI and your IAR, including, but not limited to, the SEI client agreement, related fee schedules, and SIMC's Form ADV, Part 2A, to ensure that you understand the charges and fees imposed by SEI, SEI's affiliates, and specific money managers. If you have any questions regarding the fees you will pay in connection with the SEI program, please contact your IAR.

The client agreement may be terminated by any of the parties to the agreement by provision of written notice to the other parties. Upon termination, any prepaid, unearned fees will be refunded to the client. Any fees accrued but not yet assessed to the client's account will be assessed prior to the termination of the agreement.

Each mutual fund has its own fees, costs, and expenses, including, but not limited to, management fees, 12b-1 fees, sub-transfer agency fees, other shareholder servicing expenses, custodial expenses, legal expenses, accounting expenses, transfer agent expenses, administrative expenses, and other operating expenses. In addition, each mutual fund will incur portfolio management costs, primarily in the form of brokerage commissions, as it buys and sells securities within the mutual fund's portfolio. Although these fees, costs, and expenses are not liquidated directly from client accounts and therefore may be less "visible," it is important for clients to recognize that they incur these fees, costs, and expenses indirectly and that these fees, costs, and expenses are in addition to the other fees clients pay to LFS, IARs, SEI, and other parties in connection with their SEI program accounts. Detailed information regarding the fees, costs, and expenses incurred and charged by mutual funds, including the SEI Funds, is provided in the applicable mutual fund's prospectus and statement of additional information. Clients should review these documents carefully and address any questions they may have regarding product-level expenses with their IAR.

The client may make additions to, or withdrawals from, their SEI account upon notice to the IAR and subject to the terms of their client agreement. If at any time a client's account assets fall below the minimum account size originally specified, the client's client agreement may be subject to termination. SEI accounts are designed as a long-term investment vehicles and clients should understand that asset withdrawals may impair the achievement of the investment objectives for their account.

LFS receives additional compensation, or "marketing support," from SEI for its promotional, marketing, and educational efforts related to SEI's programs and cash and non-cash payments from SEI for meetings, training, and support of education and marketing initiatives. LFS's receipt of this additional compensation from SEI presents a conflict of interest for LFS given its financial incentive to recommend that clients use the SEI programs over other available programs that provide LFS relatively lower or no additional compensation. We address this conflict of interest by disclosing it to you, not sharing any marketing support payments we receive from SEI with the IARs that recommend programs, products, or services for your account, and requiring that there be a review of your account at account opening and periodically to determine whether it is suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics. For additional information on LFS's marketing support arrangements with SEI and other sponsors, and LFS's related conflicts of interest, please see the section entitled Compensation for the Sale of Securities; Marketing Support Arrangements below and the marketing support disclosures available on LFS's website at www.lfsecurities.com under My accounts—Disclosures.

Clients can potentially pay more for services in SEI's asset management programs than if they purchased similar services separately. The fees for these programs can potentially be higher than investment advisory fees charged by SEI or LFS to other clients for similar or identical services. The amount of compensation LFS receives can potentially be more than what it would receive if the client used other available programs or paid separately for SEI's services. Therefore, LFS has a conflict of interest given its financial incentive to recommend SEI over other available programs and services for which it receives relatively lower or no compensation. We address this conflict of interest by disclosing it to you and by requiring that there be a review of your account at account opening and periodically to determine whether it is suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics.

For more information on the SEI program and the investment solutions offered by SEI, including the services SEI provides, applicable investment minimums, the fees, costs, and expenses you will incur, and SEI's and its affiliates' conflicts of interest, please refer to the SIMC disclosure brochure, which is available on the SEC's website at www.adviserinfo.sec.gov.

AssetMark Program Fees and Compensation

For AssetMark programs, the client will pay an ongoing investment management fee ("Management Fee") that varies by program, which includes a maximum annual fee to LFS of 1.35% of clients' program assets. LFS's portion of the Management Fee is negotiable and varies among clients. The Management Fee is calculated and billed quarterly in advance (*i.e.*, at the beginning of the applicable billing period) based on the value of the assets in the client's account on the last day

of the previous calendar quarter. For new accounts, the Management Fee is prorated when the account is opened for the rest of the quarter. The custodian bills the client's account for the Management Fee, keeps its portion for custodial services, and pays the rest of the Management Fee to AssetMark, who then pays LFS and any portfolio managers and service providers. LFS keeps part of its portion of the Management Fee and pays a portion to the IAR.

LFS also assesses an annual administrative fee of up to 0.05% of clients' assets in connection with AssetMark's asset allocation programs, and, when applicable, this administrative fee will be separately disclosed to you in the fee schedule attached to your client agreement or other account-opening documentation. The administrative fees LFS charges are not shared with your IAR.

Please carefully review the account-opening paperwork you receive from AssetMark and your IAR, including, but not limited to, the AssetMark client agreement, related fee schedules, and AssetMark's applicable Form ADV, Part 2A, to ensure that you understand the charges and fees imposed by AssetMark, its affiliates, and specific money managers. If you have any questions regarding the fees you will pay in connection with the AssetMark programs, please contact your IAR.

LFS receives additional compensation, or "marketing support," from AssetMark for its promotional, marketing, and educational efforts related to AssetMark's programs and cash and non-cash payments from AssetMark for meetings, training, and support of education and marketing initiatives. LFS's receipt of this additional compensation from AssetMark presents a conflict of interest for LFS given its financial incentive to recommend that clients use the AssetMark programs over other available programs that provide LFS relatively lower or no additional compensation. We address this conflict by disclosing it to you, not sharing any marketing support payments from AssetMark with the IARs that recommend programs, products, or services for your account, and requiring that there be a review of your account at account opening and periodically to determine whether it is suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics. For additional information on LFS's marketing support arrangements with AssetMark and other sponsors, and LFS's related conflicts of interest, please see the section entitled Compensation for the Sale of Securities; Marketing Support Arrangements below and the marketing support disclosures available on LFS's website at www.lfsecurities.com under My accounts—Disclosures.

Clients can potentially pay more for services in AssetMark's asset management programs than if they purchased similar services separately. The fees for these programs can potentially be higher than investment advisory fees charged by AssetMark or LFS to other clients for similar or identical services. The amount of compensation LFS receives can potentially be more than what it would receive if the client used other available programs or paid separately for AssetMark's services. Therefore, LFS has a conflict of interest given its financial incentive to recommend AssetMark over other available programs and services for which it receives relatively lower or no compensation. We address this conflict of interest by disclosing it to you and by requiring that there be a review of your account at account opening and periodically to determine whether it is suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics.

For more information on the AssetMark program and the investment solutions offered by AssetMark, including the services AssetMark provides, applicable investment minimums, the fees, costs, and expenses you will incur, and AssetMark's and its affiliates' conflicts of interest, please refer to the AssetMark disclosure brochure, which is available on the SEC's website at www.adviserinfo.sec.gov.

Morningstar Program Fees and Compensation

Fees for the Morningstar® Managed PortfoliosSM Program are paid quarterly in arrears (*i.e.*, following the completion of the applicable billing period) based on the client's average account value during the quarter. MIS is paid for its investment advisory services as a percentage of assets. MIS delegates certain services to LFS, including, but not limited to, assisting each client in completing a questionnaire and other account opening forms, conducting suitability and best interest reviews, contacting the client at least annually to identify any changes in their financial situation, and acting as liaison between MIS and the client. For these services, LFS receives a portion of the annual fee paid by the client. LFS's portion of the fee will not be more than 1.10% of client's assets annually. Clearing and custody charges associated with the account are disclosed to the client by the applicable broker-dealer.

Please carefully review the account opening paperwork provided by MIS and your IAR, including, but not limited to, the MIS client agreement, related fee schedules, and MIS's Form ADV, Part 2A, as well as all applicable custodial paperwork, to ensure that you understand the charges and fees imposed by MIS, its affiliates, specific money managers, and the applicable custodian and clearing firm. If you have any questions regarding the fees you will pay in connection with the Morningstar programs, please contact your IAR.

LFS receives additional compensation, or "marketing support," from MIS for its promotional, marketing, and educational efforts related to MIS's programs and cash and non-cash payments from MIS for meetings, training, and support of education and marketing initiatives. LFS's receipt of this additional compensation from MIS presents a conflict of interest for LFS given its financial incentive to recommend that clients use the MIS programs over other available programs that provide LFS relatively lower or no additional compensation. We address this conflict of interest by disclosing it to you, not sharing any marketing support payments from MIS with the IARs that recommend programs, products, or services for your account, and requiring that there be a review of your account at account opening and periodically to determine whether it is suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics. For additional information on LFS's marketing support arrangements with MIS and other sponsors, and LFS's related conflicts of interest, please see the section entitled Compensation for the Sale of Securities; Marketing Support Arrangements below and the marketing support disclosures available on LFS's website at www.lfsecurities.com under My accounts—Disclosures.

Clients can potentially pay more or less for services in MIS's asset management programs than if they purchased similar services separately. The fees for these programs can potentially be higher than investment advisory fees charged by MIS or LFS to other clients for similar or identical services. The amount of compensation LFS receives can potentially be more than what it would receive if the client used other available programs or paid separately for MIS's services. Therefore, LFS has a conflict of interest given its financial incentive to recommend MIS over other available programs and services for which it receives relatively lower or no compensation. We address this conflict of interest by disclosing it to you and by requiring that there be a review of your account at account opening and periodically to determine whether it is suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics.

For more information on the Morningstar® Managed PortfoliosSM Program and the investment solutions offered by MIS, including the services MIS provides, applicable investment minimums, the fees, costs, and expenses you will incur, and MIS's and its affiliates' conflicts of interest, please refer to the MIS disclosure brochure, which is available on the SEC's website at www.adviserinfo.sec.gov.

Solicitor Program Fees and Compensation

As part of the solicitation services LFS previously provided and currently provides in very limited circumstances, LFS and the IARs receive referral fees for referring clients to TAMPs and investment managers, which are generally referred to as "Solicitor Fees." In most cases, Solicitor Fees are calculated as a percentage of the client assets that the TAMP sponsor and/or third-party investment manager manages; however, there are instances where Solicitor Fees are paid under alternative arrangements. LFS's Solicitor Fee is negotiated with the applicable TAMP sponsor and/or third-party investment manager, and typically ranges from 25% to 100% of the total investment advisory fee paid by the client. Solicitor Fees are disclosed to clients and prospective clients as and when required by the Advisers Act and the rules and regulations thereunder. Please see your account-opening documentation and related disclosure for additional information, and address any questions you may have with your IAR.

FINANCIAL PLANNING, CONSULTATION, AND SEMINAR FEES

Financial planning and consultation fees are charged according to various factors, including, but not limited to, the size and complexity of each client's financial circumstances and the client's income and net worth. Fees depend on, among other things, whether the service is made available by an employer as an employee benefit and whether the fee is for a new agreement or the renewal of a prior agreement. All planning and consultation fees are based on the specific planning and consultation services to be provided to the client and the complexity of the client's financial situation and goals. Each IAR will negotiate with each client to determine the financial planning or consultation fees to be charged; therefore, fees vary among IARs and clients and some IARs charge higher fees than other IARs for similar or identical services.

FINANCIAL PLANNING, CONSULTATION, AND SEMINAR FEES

Financial Planning Fees

A flat fee is charged for financial planning services and is specified in the financial planning agreement. An initial payment of up to 100% of the total fee is generally billed to the client when the financial planning agreement is signed, and the balance of the fee, if any, is payable upon delivery of the financial plan. Alternatively, LFS permits financial planning fees to be paid over time in monthly, quarterly, semi-annual, or annual installments. Fees charged to financial planning clients typically range from \$1,500 to \$75,000, but financial planning fees are negotiated between each IAR and client and may be higher or lower depending upon, among other things, the complexity of the client's financial situation and needs. Because situations affecting the planning process may change, financial planning fees may be re-negotiated and adjusted during the planning process with the client's consent. Based on the client's individual financial situation and personal and/or business objectives, financial planning services may be provided in separate phases with a different fee charged for each phase. The individual phases and applicable fees are based on the various components of the planning process, such as data collection, definition of objectives, and recommendations on specific areas of the plan.

LFS may pay a portion of the total fee paid by the client to Lincoln Financial Advisors Corporation ("LFA"), a registered investment adviser that is affiliated with LFS, for certain services performed by LFA's financial planning department in the development of the client's financial plan. Any services provided by LFA pursuant to this arrangement will be provided to LFS, and not to the client.

Consultation Fees

A flat fee is charged for consultation services and is specified in the consultation agreement. The fee may be based upon an hourly rate, multiplied by an approximate number of hours, but cannot be paid as a retainer fee for future services to be determined. Consultation fees are determined and generally are billed when the client signs the agreement; however, LFS also permits consultation fees to be paid over time in monthly, quarterly, semi-annual, or annual installments. Fees charged for consultation services typically range from \$250 to \$500 an hour, but consultation fees are negotiated between each IAR and client and may be higher or lower depending upon, among other things, the complexity of the client's financial situation and needs.

Consulting Subscription Fees

For subscription agreements, clients pay a flat fee for the full term of their subscription agreement. Consulting subscription fees are paid in advance in equal installments on either a monthly, quarterly, semi-annual, or annual basis as specified in the client's subscription agreement. In certain circumstances, IARs charge an initial one-time fee at the outset of the subscription agreement that is in addition to the flat subscription fee for the term. Consulting subscription fees are negotiated between each IAR and client and vary depending upon, among other things, the complexity of the client's financial situation and needs and the client's goals for their subscription.

Seminar Fees

Seminar fees are charged either as a flat fee for a group of attendees or a flat amount per attendee. Fees are typically paid up front; however, LFS also permits seminar fees to be paid over time in monthly, quarterly, semi-annual, or annual installments. Seminar fees are negotiated between each IAR and client and vary depending upon, among other things, the nature of the content to be presented during the seminar, number of seminars, and number of expected seminar attendees.

Termination of Services

All financial planning, consultation, subscription, and seminar agreements may be terminated without penalty at the discretion of the client. If the client terminates their agreement before the plan, consultation, subscription, or seminar has been completed, any fees for work already completed will be due to LFS and any prepaid, unearned fees will be refunded to the client.

For financial planning services, if the client is dissatisfied with the focus or specificity of their financial plan, LFS will, if requested by the client in writing within ten days of delivery of their financial plan, and at no additional cost to the client, make appropriate changes to the client's financial plan or, in LFS's sole discretion, refund part or all of the financial planning fee the client has paid.

For point-in-time consultation services, if the client is dissatisfied with the focus or specificity of their consultation, LFS will, if requested by the client in writing within ten days of their consultation, and at no additional cost to the client, provide a single follow-up consultation or, in LFS's sole discretion, refund part or all of the consultation fee the client has paid.

For consulting subscription services, if the client is dissatisfied with the services they receive as part of their subscription agreement, LFS may, in its sole discretion, refund all or a part of the fees the client has paid in connection with their subscription agreement.

FEES FOR RETIREMENT PLAN CONSULTING SERVICES

Fees for LFS's Retirement Plan Services are negotiable. The Sponsor may be charged a fee based on a percentage of Plan assets, an hourly rate, or a flat dollar amount. The Sponsor may decide whether to pay the fees directly or may authorize the Plan's recordkeeper or custodian to pay LFS from Plan assets. If fees are to be charged on an ongoing basis, they will be billed either monthly or quarterly in arrears (*i.e.*, following the completion of the applicable billing period). If the fee is not hourly, the initial fee will be prorated based upon the number of days remaining in the initial quarterly period from the date of execution or effective date of the Agreement, unless other arrangements are agreed to by the Sponsor. If the fee is based on a percentage of Plan assets, the initial fee will be based upon the market value of the Plan assets at the close of business on the last business day of the initial monthly or quarterly period, as applicable, based on the average daily balance of Plan assets, or as otherwise calculated by the recordkeeper used by the Plan.

Thereafter, the monthly or quarterly portion of any annual asset-based fees will be based upon the market value of the Plan assets at the close of business on the last business day of the previous calendar month or quarter, as applicable (without adjustment for anticipated withdrawals by Plan participants or beneficiaries or other anticipated or scheduled transfers or distributions of assets), based on the average daily balance of Plan assets, or as otherwise calculated by the recordkeeper. If the Agreement is terminated prior to the end of a billing month or quarter, LFS will be entitled to a fee, prorated for the number of days in the period prior to the effective date of termination, or as otherwise calculated by the recordkeeper. Sponsors receiving Retirement Plan Services can potentially pay more than a client might otherwise pay if purchasing the Retirement Plan Services separately or through another service provider. There are several factors that determine whether the costs would be more, including, but not limited to, the size of the Plan, the specific investments made by the Plan, the number of locations and participants, the Retirement Plan Services offered by another service provider, and the actual costs of Retirement Plan Services purchased elsewhere. In light of the specific Retirement Plan Services offered by LFS, the fees charged can potentially be more than those of other similar service providers. All fees paid to LFS for Retirement Plan Services are separate and distinct from the fees and expenses charged by mutual funds, ETFs, and other securities and investment products to their shareholders. Those fees and expenses are described in each security's and investment product's prospectus or other offering documents, and will include, where applicable, management fees, 12b-1 fees, sub-transfer agency fees, other shareholder servicing expenses, custodial expenses, legal expenses, accounting expenses, transfer agent expenses, administrative expenses, and other operating expenses. If the security or other investment product also imposes sales charges, a client will pay an initial or deferred sales charge where applicable. The Retirement Plan Services provided by LFS are designed to, among other things, assist the client in determining which investment managers are most appropriate to each client's financial condition and objectives and to provide other administrative assistance as selected by the client. Accordingly, the client should review the fees charged by the funds, the investment manager, the Plan's other service providers, and LFS to fully understand the total amount of fees to be paid by the client and to evaluate the Retirement Plan Services being provided against all related costs.

OTHER CLIENT FEES AND EXPENSES

In addition to TAMP program fees and applicable transaction, trading, execution, and brokerage service charges as described in clients' client agreements and other account-opening documentation, clients will incur applicable fees, costs, and expenses imposed by third parties in connection with the investments made through their TAMP program accounts. These

fees, costs, and expenses that clients will incur, when applicable, include, but are not limited to: the internal expenses of money market mutual funds (including those used as cash sweep vehicles) and other mutual funds, including, but not limited to, management fees, 12b-1 fees, sub-transfer agency fees, other shareholder servicing expenses, custodial expenses, legal expenses, accounting expenses, transfer agent expenses, administrative expenses, and other operating expenses; mutual fund networking fees; deferred sales charges on previously purchased mutual fund shares transferred into a TAMP program account; other transaction charges and service fees; and other charges permitted or required by law. When serving as the broker-dealer of record for your account, LFS receives all or a portion of certain of these fees, including 12b-1 fees, and, as such, LFS has a conflict of interest given its financial incentive to recommend that you use products, share classes, and strategies that provide LFS the highest rate and amount of compensation, rather than other available products, share classes, and strategies that provide LFS relatively lower or no compensation. We address this conflict of interest by disclosing it to you, not sharing any of these revenues with the IARs that recommend transactions or strategies for your account, and by requiring that there be a review of your account at account opening and periodically to determine whether it is suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics. However, because LFS does not serve as the broker-dealer of record for client accounts invested in TAMP programs, LFS does not typically receive these fees in connection with TAMP program accounts. Additionally, LFS and IARs do not credit clients' TAMP accounts for any 12b-1 fees clients incur as a result of money market and other mutual fund holdings in their TAMP program accounts. **Clients will not receive 12b-1 fee credits from LFS for any 12b-1 fees they incur in connection with money market mutual funds or other mutual funds held in their TAMP accounts.** Further information regarding the various fees, costs, and expenses charged by a money market mutual fund or other mutual fund, ETF, AI, annuity, or other security or investment product is available in the applicable prospectus or other offering documents, which clients should thoroughly review before investing. For complete fee details, including TAMP account fee schedules and a list of applicable transaction, trading, execution, and brokerage service charges, please see your client agreement and the other account-opening documentation you received in connection with the TAMP program, including prospectuses for mutual funds and other investment products.

In one of the Pacific programs called the Managed Strategists Program, client portfolios are invested solely in the RiskPro Funds, a group of mutual funds managed by an affiliate of Pacific. In this program, LFS receives annual fees of 0.75% for assets held in the program. This fee is offset in its entirety by LFS's receipt of an annualized total of 0.75% of revenue from Pacific and the RiskPro Funds. The revenues paid to LFS are as follows: 0.25% annualized fee paid by the RiskPro Funds as a 12b-1 fee; 0.25% annualized fee paid by the RiskPro Funds as a shareholder services fee; and 0.25% annualized fee paid by Pacific from its own resources. Since the fees payable to LFS from the Managed Strategists Program are offset in their entirety by these other sources of revenue, no fee for LFS is liquidated from the client's account in this program. The fees payable to LFS and the offsetting arrangement summarized above are described in more detail in Pacific's Form ADV, Part 2A and in the investment management agreement and disclosure statement signed by the client specific to the Managed Strategists Program. The 12b-1 fees that LFS receives in connection with this arrangement are not credited back to client accounts by LFS or IARs and clients will incur the full amount of such 12b-1 fees.

A client can invest in mutual funds and other securities and investment products directly, without the services of LFS or an IAR. In that case, the client will not receive the services provided by LFS or the IAR, which are designed, among other things, to assist the client in determining on an ongoing basis which mutual funds or other investments are suitable for and in the best interest of the client given the client's investment objectives, financial circumstances, and other characteristics. Accordingly, the client should review both the fees charged and expenses incurred by the mutual funds and other securities and investment products and the fees charged and services provided by LFS, the IAR, and other applicable parties to understand the total amount of fees to be paid by the client and thereby evaluate the services being provided against all related costs.

Other fees, costs, and expenses that will be charged to the client, when applicable, and that are not part of the TAMP program fee include, but are not limited to: transaction, trading, and execution charges; brokerage service charges; fees for "step-out" portfolio transactions executed away from your custodian and clearing firm; dealer mark-ups and mark-downs (*i.e.*, adjustments to your purchase or sale price above or below the current market price of the applicable security); spreads paid to market-makers; charges imposed by securities exchanges and regulators, including, but not limited to, transaction fees imposed by the SEC; and other fees and charges customary to securities brokerage accounts. For detailed information on fees, costs, and expenses applicable to your TAMP account and transactions therein, please carefully review the client agreement and other account-opening documentation for your particular TAMP program.

MARGIN AND SECURITIES-BACKED LOANS AND LINES OF CREDIT

To the extent that your TAMP sponsor offers the ability to take a margin loan, securities-backed loan (“SBL”), or a securities-backed line of credit (“SBLOC”) in connection with your TAMP account, LFS and your IAR have a conflict of interest in recommending that you use margin loans, SBLs, and SBLOCs since the asset-based program fees they receive from you are generally charged on the total market value of your account, without deducting the balance of any outstanding margin loan, SBL, or SBLOC. For example, if LFS and your IAR recommend that you utilize a margin loan to purchase securities, the full value of those securities generally will be subject to LFS’s and your IAR’s asset-based program fees, which will increase the compensation they will receive from you and increase your overall expenses. Similarly, LFS and your IAR have a conflict of interest in recommending that you use margin loans, SBLs, and SBLOCs for liquidity purposes rather than liquidating your holdings or withdrawing cash from your accounts. This is true because LFS and your IAR will financially benefit from your margin loan, SBL, or SBLOC because you don’t have to liquidate assets in your account to pay for things with cash, which would diminish the assets held in the account and the asset-based program fees and other compensation that would be earned by LFS and your IAR from holding and engaging in future transactions with those assets (including, but not limited to, compensation that LFS receives in connection with your cash holdings as described herein). For example, by encouraging you to take out a margin loan, SBL, or SBLOC to fund a purchase or financial need rather than liquidate securities or withdraw cash from your accounts, LFS and your IAR generally will continue to earn asset-based program fees on the total market value of your account, without deducting the balance of your outstanding margin loan, SBL, or SBLOC, and LFS will continue to receive compensation in connection with your cash holdings as described herein. However, in TAMP programs, LFS and your IAR do not receive any portion of the interest rate you pay on outstanding margin loan, SBL, and SBLOC balances and do not share in any other compensation that the TAMP sponsor or its affiliates receive from your margin loan, SBL, or SBLOC lender in connection with your outstanding margin loan, SBL, and SBLOC balances.

LFS addresses these conflicts of interest by, among other things, disclosing them to you and by requiring that there be a review of your account and transactions at account opening and periodically to determine whether they are suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics.

STEP-OUT TRADING

Transactions executed at broker-dealers other than the one at which a client’s TAMP account is held are sometimes called “step-out” trades. An investment manager that has the discretion to execute step-out trades with broker-dealers other than the one at which a client’s TAMP account is held will incur additional transaction, trading, or execution fees that the client will pay as a result of such step-out trades. Additional transaction, trading, or execution fees resulting from step-out trades will increase the client’s cost and negatively impact investment performance. However, a step-out trade can potentially allow the investment manager to achieve better price execution. In cases where an asset-based fee that includes the cost of advisory, brokerage, and custodial services (*i.e.*, a “wrap fee”) is assessed, the asset-based fee does not cover charges resulting from step-out trades effected by an investment manager with broker-dealers apart from the one at which a client’s TAMP account is held.

TAMP program investment managers are generally free to consider other broker-dealers’ trading capabilities versus the trading capabilities of the broker-dealer at which TAMP program accounts are held as part of their duty to seek best execution and obligations as investment advisers. TAMP program investment managers may decide to step out for a variety of reasons, including to obtain an optimal combination of price and service for the client or to satisfy the investment manager’s best execution obligation. Investment managers have the discretion to utilize step-out trades in circumstances including, but not limited to, those involving equity securities, fixed-income securities, derivatives (*e.g.*, options), thinly traded securities, illiquid securities, and ETFs. A step-out trade occurs in some instances when an investment manager purchases equity securities, fixed-income securities, derivatives (*e.g.*, options), thinly traded securities, illiquid securities, ETFs, or other securities from a different broker-dealer or the broker or dealer selling the securities to obtain a more favorable price or because the particular security is not available through the broker-dealer associated with your TAMP program. In other instances, a step-out trade occurs when the investment manager executes a single trade for multiple clients by aggregating orders into a single “block.” A “block” trade can potentially provide the client with a better overall price and/or return because a single order can potentially result in better execution versus placing multiple separate orders. When an investment manager executes a block order, that investment manager is seeking to obtain best execution and best price.

Aggregating transactions into a single trade can potentially afford the investment manager more control over the execution of the trade, including potentially avoiding an adverse effect on the price of the security that could result from effecting a series of separate, successive, and/or competing small trades with multiple broker-dealers or clearing firms.

TAMP program fees typically do not cover any fees, costs, or expenses resulting from step-out trades effected with, or through, broker-dealers or clearing firms other than the one at which your TAMP account is held. They also typically do not cover any mark-ups or mark-downs (*i.e.*, adjustments to your purchase or sale price above or below the current market price of the applicable security) by any such other broker-dealers or clearing firms. As such, clients are typically responsible for any such additional transaction, trading, and execution fees, costs, and expenses in addition to the applicable TAMP program fees. Neither LFS nor its IARs receive any additional fees in connection with costs incurred by clients due to step-out trading.

Further information regarding the frequency of third-party advisers' utilization of step-out trades and a general description of the additional costs related to step-out trades can be found on our website at www.lfg.com/public/individual/adv. If you have any questions regarding this information or step-out trading in your account and related costs, please contact your IAR.

Where LFS is the broker-dealer of record on a client's fee-based investment advisory account, LFS acts as a broker for transactions in the account and establishes, controls, and charges transaction, trading, execution, and brokerage service charges as described in the LFS Fee Schedule to, among other things, defray its costs associated with trade execution and related services and to compensate it for the various services it provides as your broker-dealer. LFS generally sets its transaction, trading, execution, and brokerage service charges at amounts and rates, and using methodologies, that result in aggregate client charges that are higher than the related fees, costs, and expenses, if any, that LFS pays to NFS for clearance and execution of transactions and related services. For certain charges imposed by LFS (*e.g.*, charges related to the transfer of clients' non-retirement account assets to another firm ("ACAT Exit Fees")), LFS pays no related fees, costs, or expenses to NFS and LFS retains the entire amount of the charges. These transaction, trading, execution, brokerage service, and other fees set by LFS are sometimes called "markups" given the difference between the increased costs clients incur and the related costs, if any, that LFS pays to NFS, and they vary by product, the type of service provided, the nature and amount of transactions involved (if applicable), the type of account, and other factors. Markups will result in your payment of higher fees, costs, and expenses than you would otherwise directly pay to NFS or other available service providers (*e.g.*, on margin loans, cash debits, SBLs, and SBLOCs, and for applicable transaction, trading, execution, brokerage service, and other charges). Markups will also cause you to receive lower interest rates and other payments than you would otherwise directly receive from NFS or other available service providers if you were to enter into arrangements directly with NFS or other available service providers where LFS did not impose markups or receive payments from NFS (*e.g.*, on FCASH balances, short positions, and cash balances in accounts not selecting a cash sweep vehicle). LFS does not reduce its program fees to offset any applicable transaction, trading, execution, brokerage service, or other charges clients incur in connection with their fee-based investment advisory accounts. As a result, these charges are in addition to the program fees you pay LFS in connection with your fee-based investment advisory accounts, and you should consider the additional revenue LFS receives as a result of these charges when evaluating the appropriateness of LFS's program fees.

These transaction, trading, execution, brokerage service, and other charges are a significant source of revenue and profit for LFS and LFS has a conflict of interest given its financial incentive to: (i) recommend itself as the broker-dealer of record and NFS as the custodian for your fee-based investment advisory account (rather than other available broker-dealers and custodians), which enables LFS to establish, control, and charge these fees; (ii) exercise its discretion to set the method of calculating and amounts and rates of these charges in a manner and at levels that generate the highest possible revenue and profit for LFS, which will result in correspondingly higher expenses for you; (iii) recommend specific products, share classes, transactions, and other activities that result in LFS's receipt of the highest rate and amount of these charges, rather than other available products, share classes, transactions, and activities that generate relatively lower or no charges for LFS and would result in correspondingly lower expenses for you; (iv) recommend that you frequently transact in products and share classes, and frequently engage in transactions and activities, that generate the highest rate and amount of these charges for LFS; and (v) recommend that clients participate in LFS's managed account programs and increase their assets under management in LFS's managed account programs, as the monthly asset-based fee rate that LFS pays NFS for clearance, execution, and certain related services is based upon, and decreases with, the total amount of client assets that LFS and its affiliate, LFA, have in managed accounts held with NFS. For example, because transaction, trading, and execution fees, costs, and expenses vary depending on the type of mutual fund (*e.g.*, transaction fee ("TF") mutual funds versus no transaction fee ("NTF") mutual funds) or other security or investment product being purchased or sold, LFS earns more

from, and has a financial incentive to recommend, transactions involving securities and other investment products with the highest transaction, trading, and execution charges, which will result in higher expenses for you, rather than other available securities and investment products with relatively lower or no transaction, trading, and execution charges. By way of example, as of the date of this Brochure, you would incur, and LFS would receive, a \$9 charge for the first 1,000 listed equity shares you trade, a \$40 charge for a corporate bond you trade, a \$15 minimum charge for a TF mutual fund you trade, and no charge for an NTF mutual fund you trade; however, LFS's monthly asset-based clearance, execution, and related service expense under its clearing agreement with NFS would remain constant in each of these scenarios. This example is illustrative only and is not intended to reflect the actual transaction, trading, and execution charges you will incur. Please refer to the current LFS Fee Schedule, which is available on LFS's website at www.lfsecurities.com under My accounts—Cost, for a detailed description of the actual transaction, trading, execution, and brokerage service charges applicable to fee-based investment advisory accounts at NFS for which LFS serves as broker-dealer of record.

LFS addresses these conflicts of interest by disclosing them to you; providing you with the LFS Fee Schedule, which discloses the amount and rate of transaction, trading, execution, and brokerage service charges you will incur for fee-based investment advisory accounts for which LFS serves as the broker-dealer of record, the services you receive, and the securities and other investment products you purchase, hold, and sell in your account; not sharing any transaction, trading, execution, or brokerage service charges with the IARs that recommend products, share classes, transactions, strategies, or services for your account; and by requiring that there be a review of your account and transactions at account opening and periodically to determine whether they are suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics. However, it is important to note that LFS is not the broker-dealer of record on client accounts invested in TAMP programs and therefore LFS does not assess or receive transaction, trading, execution, or brokerage service charges as mentioned above related to client accounts in TAMP programs.

When serving as the broker-dealer of record on your account, LFS is responsible for and performs a number of broker-dealer functions and services with respect to your account and any securities transactions therein. LFS's responsibilities include, but are not limited to: collecting, verifying and maintaining documentation about you and your account; approval and acceptance of your account; reviewing and supervising activities, including trading activities, within your account; reviewing and either accepting or rejecting any transactions within your account; transmission of all orders with respect to your account; supervision of all orders and accounts, including maintaining compliance with best interest standards and regulatory requirements, as applicable; and ensuring that any mutual fund orders are in compliance with the terms of the applicable prospectus. LFS maintains substantial operational, compliance, and technology resources in support of its broker-dealer operations necessary to provide these and other services in connection with your account and any transactions effected in your account.

MUTUAL FUND CATEGORIES AND SHARE CLASSES

Internal mutual fund fees and expenses, including, but not limited to, 12b-1 fees, vary across mutual funds and share classes as set forth in the prospectus for each mutual fund and share class. Please consult with your IAR to ensure you know and understand the types of mutual funds and share classes being utilized in your account and their applicable fees and expenses, including internal expenses and transaction charges, if any, you will incur when trading such funds and share classes.

When you purchase a money market or other mutual fund that includes a 12b-1 fee as part of its expense ratio, as disclosed in the mutual fund's prospectus, you will indirectly incur the expense of that 12b-1 fee. Mutual fund share classes that pay 12b-1 fees typically have higher internal expenses than other available share classes that do not incur 12b-1 fees. However, in many cases 12b-1 fee paying mutual fund share classes do not incur transaction fees when executing a trade at the clearing firm. These higher internal expenses, including 12b-1 fees, are assessed to investors who purchase and hold higher internal expense mutual fund share classes. In certain circumstances, these higher internal expense mutual fund share classes will cost you more overall than other available mutual fund share classes that assess a transaction charge but have lower internal expenses. Other mutual fund share classes that have lower internal expenses and do not pay 12b-1 fees are available; however, depending on the particular mutual fund, those share classes may incur transaction fees with any purchase or sale. Each share class has eligibility standards as described in the mutual fund's prospectus or statement of additional information. Because LFS does not serve as the broker-dealer of record for client accounts invested in TAMP programs, LFS does not typically receive 12b-1 fees in connection with mutual fund holdings in clients' TAMP accounts. Additionally, LFS and IARs do not credit clients' TAMP accounts for any 12b-1 fees clients incur as a result of money market and other mutual

fund holdings in their TAMP program accounts. **Clients will not receive 12b-1 fee credits from LFS for any 12b-1 fees they incur in connection with money market mutual funds or other mutual funds held in their TAMP accounts. Clients should also not assume that the TAMP sponsor will credit their TAMP account for any other ancillary fees, including, but not limited to, investment management fees, received by the TAMP and that clients incur in connection with money market mutual funds or other mutual funds held in their TAMP accounts.**

Many mutual funds offer multiple share classes that represent the same underlying investments, but have different fees and expenses (including, but not limited to, 12b-1 fees) and differ in their availability for investment based upon certain eligibility requirements. For instance, in addition to the more commonly offered retail share classes (typically, Class A (including load-waived A shares), B, and C shares), many mutual funds offer institutional share classes or other share classes that are specifically designed for purchase in fee-based investment advisory accounts. Institutional share classes or classes of shares designed for purchase in fee-based investment advisory accounts often have lower expense ratios than other share classes. However, these share classes often have higher transaction costs and will, in certain circumstances, have specific eligibility criteria as described in the mutual fund's prospectus or statement of additional information.

Your TAMP program sponsor's, investment manager's, or IAR's assessment of the appropriate share class is based on a range of different considerations, including, but not limited to: whether transaction charges are applied to the purchase or sale of the particular mutual fund or share class; your anticipated level of trading activity in the mutual fund or share class; your anticipated holding period for the mutual fund or share class; the asset-based advisory fee charged for your account; the overall cost structure of the advisory program; operational considerations associated with accessing or offering particular share classes (including the presence of selling agreements with the mutual fund sponsors and the ability to access particular share classes through the custodian); and share class eligibility requirements. The factors considered, and the weighting of the importance of each of these factors, varies among TAMP program sponsors, investment managers, and IARs. The transaction costs and advisory program cost structure are determined by your broker-dealer and the TAMP program sponsor and LFS, respectively, and are determined based on factors such as the availability of cost sharing, 12b-1 distribution fees, shareholder servicing fees, and other compensation associated with offering a particular class of shares.

In selecting or recommending particular mutual fund share classes, TAMP program sponsors, investment managers, and IARs may (but are not required to) consider the overall costs and expenses associated with providing ongoing advice and services to the client. Accordingly, the advisory fees that are charged on an account or in the aggregate at the client relationship level may take into consideration the mutual fund share classes in which clients are invested. Clients that are invested in institutional share classes could have higher advisory fees and be assessed higher transaction charges and surcharges for the purchase and sale of mutual funds. Conversely, clients that are invested in retail share classes could be charged lower advisory fees, have lower transaction charges, and receive 12b-1 credits or other fee offsets to reduce the impact of being invested in a share class with higher internal expenses. Clients that prefer or request that transaction charges be minimized or avoided will be invested in share classes with higher internal expenses but lower or no transaction-based charges (such as NTF mutual funds). The higher internal expenses charged to clients who hold higher internal expense share classes, including NTF mutual funds, will adversely affect the performance of their account when compared to other available share classes of the same funds that assess lower internal expenses.

As a general matter, clients should not assume that their assets will always be invested in the money market or other mutual fund share class with the lowest possible internal expenses or costs. Your TAMP sponsor, investment manager, or IAR may recommend, select, or have your account hold a money market or other mutual fund share class that charges higher internal expenses and costs than other available share classes for the same fund. Please contact your IAR for more information about share class eligibility, transaction costs, and internal mutual fund expenses, including 12b-1 fees, and please review your money market or other mutual fund's prospectus for detailed information regarding the fund's expenses and other important matters.

CUSTODIAN AND CLEARING FIRM RELATIONSHIPS

LFS has a conflict of interest given its financial incentive to select or recommend NFS as the custodian for client accounts, increase or maintain the amount of client assets held with NFS, and maintain its relationship with NFS given the compensation that LFS and its affiliate, LFA, receive through their custody and clearing arrangements with NFS, as well as the payments they would be required to make to NFS if their arrangements with NFS were terminated. For example, in

addition to the various revenue streams described above, under the clearing agreement between LFS and NFS, LFS receives annual business development credits from NFS during the term of the clearing relationship. Additionally, LFS receives annual asset-based payments from NFS based upon net new client cash and securities transferred into accounts at NFS from other accounts not custodied or introduced by NFS or its affiliates (“net flows credits”) and, if LFS’s clearing agreement with NFS is terminated by LFS or NFS for specified reasons, LFS is required to repay NFS for a portion of the net flows credits that LFS received prior to termination. Further, if LFS’s clearing agreement with NFS is terminated by LFS or NFS for specified reasons, LFS is required to make significant early termination fee payments to NFS. LFS’s receipt of business development credits, net flows credits, and the other revenue streams described herein, as well as LFS’s related repayment and termination fee obligations to NFS under the clearing agreement, present a conflict of interest for LFS given its financial incentive to: (i) select and maintain NFS as the custodian for client accounts, rather than other available custodians and clearing firms through which LFS receives relatively lower or no business development credits, net flows credits, and other compensation and (ii) recommend that clients transfer assets to, and increase their assets held with, NFS, rather than other available custodians that provide LFS relatively lower or no business development credits, net flows credits, and other compensation. We address these conflicts by disclosing them to you and by requiring that there be a review of your account and transactions at account opening and periodically to determine whether they are suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics. However, it is important to note that LFS does not have the ability to select or recommend a particular custodian or clearing firm for client accounts invested in TAMP programs and therefore LFS does not receive any of the business development credits, net flows credits, or other compensation mentioned above as it relates to client accounts in TAMP programs.

LFS has engaged NFS to provide various services in connection with clients’ fee-based investment advisory accounts, including clearance and execution services, through a fully disclosed clearing agreement. Through its clearing relationship with NFS, LFS receives various revenue streams, including, but not limited to: compensation as a result of clients’ use of LFS’s Insured Bank Deposit Account (the “IBDA”) or Insured Bank Retirement Advisory Account (the “IBRAA”) as their cash sweep, as described in LFS’s Bank Sweep Program Disclosure Document, which is available at www.lfsecurities.com under My accounts—Disclosures; 12b-1 fees on certain Fidelity money market funds used by clients as cash sweep vehicles; 12b-1 fees on mutual funds, including, but not limited to, mutual funds purchased by clients through NFS’s NTF managed account program; revenue sharing payments from NFS based upon clients’ cash sweep balances held in NFS’s taxable interest bearing cash option, FCASH; interest payments from NFS based upon a portion of the aggregate short market value of clients’ accounts; a portion of the interest rate clients pay on margin loans; a portion of the interest rate clients pay on cash debits in their accounts; interest on cash balances in client accounts that have not selected a cash sweep option; a portion of the interest rate clients pay on NFS SBLOCs; all or a portion of the transaction, trading, execution, and brokerage service charges established, controlled, and charged by LFS and disclosed in the LFS Fee Schedule; annual business development credits, as described above; and net flows credits, as described above.

LFS’s receipt of these and other revenue streams through its clearing relationship with NFS supports and defrays the costs LFS has related to the ongoing operational and administrative maintenance of client accounts and compensates LFS for the various services it provides in its role as broker-dealer of record and/or program sponsor for such client accounts. LFS’s receipt of these revenue streams is a factor that LFS considers when selecting and maintaining its relationship with a custodian and clearing firm, such as NFS, for its programs and client accounts. This presents a conflict of interest for LFS given LFS’s financial incentive to select and maintain its relationship with custodians and clearing firms like NFS through which LFS will receive the highest rate and amount of revenue, rather than other available custodians and clearing firms through which LFS will receive relatively lower or no revenue.

Additionally, this presents a conflict of interest for LFS given LFS’s financial incentive to recommend itself as your broker-dealer of record (rather than other available broker-dealers), which affords LFS the discretion to set the amounts and rates of many of the charges that result in these revenue streams in a manner that generates the highest possible revenue to LFS. For example, when LFS serves as your broker-dealer of record, LFS generally exercises its discretion to set these charges at amounts and rates, and using methodologies, that result in aggregate client charges that are higher than the related fees, costs, and expenses, if any, that LFS pays to NFS for clearance and execution of transactions and related services. For certain charges imposed by LFS (e.g., ACAT Exit Fees), LFS pays no related fees, costs, or expenses to NFS and LFS retains the entire amount of the charges. These are sometimes called “markups” given the difference between the increased costs clients incur and the related costs, if any, that LFS pays to NFS, and they vary by product, the type of service provided, the nature and amount of transactions involved (if applicable), the type of accounts, and other factors. Markups will result

in your payment of higher fees, costs, and expenses than you would otherwise directly pay to NFS or other available service providers (e.g., on margin loans, cash debits, SBLs, and SBLOCs, and for applicable transaction, trading, execution, brokerage service, and other charges). Markups will also cause you to receive lower interest rates and other payments than you would otherwise directly receive from NFS or other available service providers if you were to enter into arrangements directly with NFS or other available service providers where LFS did not impose markups or receive payments from NFS (e.g., on FCASH balances, short positions, and cash balances in accounts not selecting a cash sweep vehicle). LFS does not reduce its program fees to offset any applicable transaction, trading, execution, brokerage service, or other charges clients incur in connection with their fee-based investment advisory accounts. As a result, these charges are in addition to the program fees you pay LFS in connection with your fee-based investment advisory account, and you should consider the additional revenue that LFS receives as a result of these charges when evaluating the appropriateness of LFS's program fees.

Further, this presents a conflict of interest for LFS given LFS's financial incentive to recommend that clients open and maintain accounts with NFS and take actions that generate these revenues for LFS, rather than other lower-cost actions that generate relatively lower or no revenue for LFS. In particular, LFS has a financial incentive to recommend that clients: open and invest through accounts that use IBDA or the IBRAA, as applicable, as their default and only cash sweep option, rather than other available account types that use cash sweeps that pay LFS relatively lower or no revenue; where possible, use Fidelity money market funds that pay LFS 12b-1 fees as cash sweep vehicles, rather than other available cash sweep vehicles that pay LFS relatively lower or no revenue; purchase mutual funds, including mutual funds available through NFS's NTF managed account program, that pay LFS 12b-1 fees, rather than other available mutual funds that pay LFS relatively lower or no revenue; where possible, use NFS's taxable interest bearing cash option, FCASH, as a cash sweep option, rather than other available cash sweep vehicles that pay LFS relatively lower or no revenue; engage in short sale transactions and increase the aggregate short market value of their accounts; use margin loans and increase their outstanding margin loan balances; incur cash debits in their accounts; where possible, maintain cash balances in their accounts outside of a cash sweep option, rather than selecting available cash sweep vehicles that pay LFS relatively lower or no revenue; use NFS SBLOCs and increase their outstanding NFS SBLOC balances; and engage in transactions and actions that generate the transaction, trading, execution, and brokerage service charges disclosed in the LFS Fee Schedule, rather than other transactions and actions that generate relatively lower or no revenue to LFS.

We address these conflicts of interest by disclosing them to you, ensuring the revenue LFS receives from these sources is not shared with the IARs providing investment advisory services and investment recommendations to you and your account, and by requiring that there be a review of your account and transactions at account opening and periodically to determine whether they are suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics. However, it is important to note that LFS does not have the ability to select or recommend a particular custodian or clearing firm for client accounts invested in TAMP programs and therefore LFS is not receiving any of the revenue mentioned above as it relates to client accounts in TAMP programs, nor does it credit clients' TAMP accounts for 12b-1 fees clients incur.

The revenue streams that LFS receives under its clearing and custodial arrangement with NFS are designed, in part, to compensate LFS for the various services it provides and are a significant source of revenue for LFS. Under LFS's arrangements with NFS and other custodians, LFS is responsible for providing the custodians with various services, including, but not limited to, (i) clerical assistance in completing account opening paperwork and opening client accounts, (ii) clerical assistance in maintaining client accounts, processing asset transfers and money movement, (iii) reconciling and assisting in updating client account information, (iv) clerical assistance in connection with client questions and account information research, (v) helping clients with using brokerage and account services such as periodic investment programs and check writing services, (vi) notifying custodian of certain customer complaints, and (vii) monitoring activity in client accounts.

COMPENSATION FOR THE SALE OF SECURITIES; MARKETING SUPPORT ARRANGEMENTS

Clients have the option to purchase securities and other investment products recommended by LFS and the IARs through other brokers or agents that are not affiliated with LFS. Commissions and other compensation for the sale of securities and other investment products, including, but not limited to, "no load" and other mutual funds, provide sources of compensation for LFS and many of the IARs.

LFS's and IARs' receipt of this compensation presents a conflict of interest and gives LFS and its IARs a financial incentive to recommend securities and other investment products, including "no load" and other mutual funds, based on the compensation they will receive, rather than on a client's needs. However, commissions are not charged by LFS or the IARs in connection with transactions in TAMP programs (though clients will incur applicable transaction, trading, execution, and brokerage service charges as detailed in their account-opening documentation).

Depending on which products and services you purchase and use, you will receive various materials, including, but not limited to, product prospectuses, client service agreements, SISs, account and other applications, and other disclosure documents, that provide important information regarding the fees and expenses you will incur in connection with the products and services you have chosen, the compensation and benefits LFS and your LFS financial professional will receive in connection with those products and services, and LFS's and your LFS financial professional's conflicts of interest in connection with those products and services. You should read and evaluate this information carefully and contact your LFS financial professional with any questions you may have before proceeding.

LFS has agreements with many mutual fund families, AI sponsors, insurance companies, TAMP sponsors, third-party asset allocation providers ("Strategists"), and other counterparties (collectively, "sponsors") under which sponsors provide additional compensation, sometimes called "marketing support," to LFS. These marketing support payments are a significant source of revenue to LFS and subsidize the cost of educational programs and marketing activities that are designed to help facilitate the utilization of these sponsors' programs, products, and services and to make our IARs more knowledgeable about these sponsors' programs, products, and services. In addition, these payments allow these sponsors' representatives to attend and participate in LFS conferences where IARs are present, one-on-one marketing meetings, and due diligence presentations. In some cases, these payments also compensate LFS for administrative services it provides in connection with the sponsors' product offerings. The method, timing, rate, and amount of these marketing support payments vary by sponsor, program, product, share class, asset class, investment strategy, and service, but marketing support payments typically are paid using one or more of the following methodologies: payment of a percentage of each sale (or of the premium paid on annuities and insurance products); payment of a flat amount per sales transaction; payment of an annual fee based on a percentage of total LFS client assets held with the sponsor; and/or payment of a flat annual fee. Payment rates and amounts vary by sponsor, but, as of the date of this Brochure, sponsors generally pay LFS: up to 1.5% of the gross amount of each sale (or of the premium paid on annuities and insurance products); up to \$250 per sales transaction; up to 0.15% annually of total LFS client assets held with the sponsor; and/or flat annual fees that do not exceed \$350,000 annually. Accordingly, with respect to the arrangements where payments are based on a percentage of each sale (or of the premium paid on annuities and insurance products), a flat amount per sales transaction, or total client assets held with the sponsor, the payments LFS receives will increase with the amount of client assets placed with the sponsor.

In addition to the marketing support payments that LFS receives through the formal marketing support arrangements described above, sponsors, including, but not limited to, those that have formal marketing support arrangements with LFS, make flat dollar payments to LFS from time to time. These payments are not always made as part of a formalized agreement, but are for specific activities, including, but not limited to, exhibit booth space, presentation opportunities at LFS meetings or similar events, attendance at conferences, educational events for IARs, and participation in other training and educational events. Some sponsors also reimburse LFS and, indirectly, IARs for certain expenses in connection with due diligence meetings, training and educational events, seminars that offer educational opportunities for clients, and similar events. Some sponsors also provide LFS and IARs with nominal gifts and gratuities, including, but not limited to, merchandise bearing the brand or logo of the sponsor.

The marketing support payments LFS receives from sponsors create financial incentives for LFS that result in conflicts of interest for LFS. In particular, LFS has a conflict of interest given its financial incentive to include the sponsors, programs, products, share classes, and services that make marketing support payments to LFS on LFS's platform and to recommend that you utilize sponsors, programs, products, share classes, and services that make such payments to LFS, rather than other available sponsors, programs, products, share classes, and services that do not make such payments to LFS. In addition, LFS has a financial incentive to include the sponsors, programs, products, share classes, and services that make the highest rate and amount of marketing support payments to LFS on LFS's platform and to recommend that you utilize those sponsors, programs, products, share classes, and services, rather than other available sponsors, programs, products, share classes, and services that make relatively lower or no marketing support payments to LFS. Additionally, certain sponsors make marketing support payments to LFS only in connection with certain programs, products, share classes, asset classes,

investment strategies, and services (and not others that are available), and certain sponsors pay LFS more or less marketing support depending on the particular program, product, share class, asset class, investment strategy, or service used. Given these facts, LFS has a conflict of interest given its financial incentive to recommend that you use the programs, products, share classes, asset classes, investment strategies, and services that generate the highest rate and amount of marketing support payments to LFS, rather than other available programs, products, share classes, asset classes, investment strategies, and services that generate relatively lower or no marketing support payments to LFS. Further, LFS limits the third-party variable annuities and fixed indexed annuities that are available through LFS to those offered by third-party sponsors that make marketing support payments to LFS. As a result, LFS and IARs cannot recommend variable annuities or fixed indexed annuities from third-party sponsors that do not make these payments to LFS and that could potentially cost you less overall and otherwise be in your best interest. This presents a conflict of interest for LFS and IARs given their financial incentive to recommend the variable annuities and fixed indexed annuities that are available through LFS's platform. LFS addresses these conflicts of interest by disclosing them to you, not sharing any marketing support payments with the IARs that recommend sponsors, programs, products, share classes, asset classes, investment strategies, or services for your account, and requiring that there be a review of your account and transactions at account opening and periodically to determine whether they are suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics.

You should be aware that there are sponsors, programs, products, share classes, asset classes, investment strategies, and services available through LFS that do not pay LFS any marketing support payments and therefore are generally less expensive for you to use than sponsors, programs, products, share classes, asset classes, investment strategies, and services that do make such payments to LFS.

For up-to-date information regarding LFS's marketing support arrangements, including a list of sponsors with which LFS has formal marketing support arrangements, a description of the revenue LFS receives, and LFS's related conflicts of interest, please see the marketing support disclosures available on LFS's website at www.lfsecurities.com under My accounts—Disclosures. Please review these marketing support disclosures in detail and discuss any questions you may have with your IAR.

LFS, the IARs, and clients also receive the benefit of certain services provided by sponsors and custodians. These services include, but are not limited to, performance reporting, statement creation and delivery, technology systems (including online access to account information), fee liquidation, notification and payment services, marketing material and other services related to the management of investment advisory accounts. Some of these services will result in additional fees, costs, and expenses to LFS, the IARs, and clients, while others are packaged and available as part of an investment advisory program without itemization of the cost of each product or service. LFS's and IARs' receipt of these additional service benefits presents a conflict of interest given their incentive to recommend or select sponsors and custodians that provide them with the highest level of services at the lowest cost, rather than other available sponsors and custodians that provide a lower level of services or similar services at a higher cost. LFS addresses this conflict of interest by disclosing it to you and by requiring that there be a review of your account and transactions at account opening and periodically to determine whether they are suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics.

IAR COMPENSATION

Some IARs receive additional compensation and benefits (including, but not limited to, compensation schedule, or "grid rate," increases; quarterly payments from LFS based on a percentage of the aggregate platform and administrative fees, or "Sponsor Fees," paid by their clients participating in LFS's investment advisory programs (sometimes referred to as "AUM discounts"); and educational and other opportunities) for reaching certain levels of assets under management in LFS's investment advisory programs. Similarly, some IARs receive additional compensation and benefits (including, but not limited to, LNC stock options; funds or reimbursements for approved business expenses; participation in deferred compensation programs; complementary or discounted access to technology tools and platforms; dedicated business development, practice management, technology, and other support services; priority call center and other enhanced back-office services; and other rewards and recognitions) for generating a certain amount of total production (*i.e.*, total revenue from Lincoln Financial Group and non-Lincoln Financial Group securities, investment advisory, and insurance and annuities business) or net paid annual premium on certain Lincoln Financial Group and non-Lincoln Financial Group insurance and annuities business ("net paid annual premium") within a certain time period, typically one year. While

qualification for additional compensation and benefits is typically measured over the course of one year, IARs can qualify for certain additional compensation and benefits based on prior years of consistent qualification or by meeting certain year-over-year total production or net paid annual premium growth thresholds. Further, some IARs receive annual recognition trips for them and, in certain cases, their family members and/or other guests based on their total production or net paid annual premium ranking as compared to their peers at LFS. Clients are not charged any additional fees as a result of IARs' receipt of these types of additional compensation and benefits from LFS. However, IARs' receipt of additional compensation and benefits presents a conflict of interest for IARs that has the potential to affect IARs' judgment and the recommendations and selections they make for you and your accounts. In particular, these forms of compensation and benefits give your IAR a financial incentive to recommend that you bring your assets from another firm to LFS, increase the amount of assets in your accounts with LFS, and purchase products and services through LFS or sponsored by LFS's parent company, Lincoln Financial Group, so that they can achieve the assets under management, total production, and/or net paid annual premium thresholds required to receive additional compensation and benefits from LFS.

IARs are eligible for a prospective grid rate increase when they meet or exceed a certain amount of total production (*i.e.*, total revenue from Lincoln Financial Group and non-Lincoln Financial Group securities, investment advisory, and insurance and annuities business) in a given year. Once an IAR meets or exceeds their individual total production threshold in a given year, they qualify for a specified percentage increase in their applicable grid rate schedule for any total production earned for the remainder of the year. A grid rate is the amount of an IAR's total production that they will split or share with LFS. For example, an IAR entitled to an 85% grid rate split is generally retaining 85% of their total production and LFS is retaining the other 15% of their total production. These prospective grid rate increases are not applied in subsequent years and an IAR's grid rate reverts to their standard grid rate the following year until they meet or exceed their individual total production threshold in that subsequent year. Additionally, LFS offers prospective grid rate increases to LFS office of supervisory jurisdiction managers ("OSJ Managers") when their total OSJ production meets or exceeds certain thresholds in a given year. Similar to the IAR grid rate increases described above, once an OSJ Manager's total OSJ production meets or exceeds their individual total OSJ production threshold in a given year, they qualify for a specified percentage increase in their applicable grid rate schedule for any total OSJ production earned for the remainder of the year. Additional compensation earned by OSJ Managers as a result of these grid rate increases are not paid to the OSJ Manager until the following year. There are certain exclusions from what is considered OSJ Manager qualifying total production, and such exclusions are not eligible for increased grid rate payment amounts (*e.g.*, production generated by IARs within the OSJ who do not meet or exceed certain minimum production thresholds in a calendar year, production generated by IARs who transfer from one OSJ to another during a year, and certain other production is excluded from the calculation of an OSJ Manager's total OSJ production for purposes of these grid rate increases). IARs' and OSJ Managers' receipt of grid rate increases presents a conflict of interest for IARs' and OSJ Managers' given their financial incentive to recommend that clients' increase their assets with LFS and engage in revenue-generating transactions and other activities so that they can achieve the total production thresholds that will result in their receipt of increased grid rates. Additionally, this presents a conflict of interest for OSJ Managers' since they have a financial incentive to spend more time on revenue generating activities within their OSJ than on their supervisory responsibilities.

We address these conflicts of interest by disclosing them to you, applying grid rate increases on a prospective (rather than retroactive) basis, and by requiring that there be a review of your account and transactions at account opening and periodically to determine whether they are suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics.

Most IARs can recommend annuities, model portfolios, and other products that are created, managed, and/or sold by Lincoln Financial Group companies, including, but not limited to, the Lincoln National Life Insurance Company ("LNL"), Lincoln Life & Annuity Company of New York ("LLANY"), and Lincoln Financial Investments Corporation ("LFI"), provided that the recommendations are suitable and in the client's best interest given the client's investment objectives, financial circumstances, and other characteristics. IARs, LFS, and other Lincoln Financial Group companies will profit when LFS clients purchase or use Lincoln Financial Group products as a result of IARs' recommendations. This presents a conflict of interest as LFS and the IARs have a financial incentive to recommend products based on the compensation they and their affiliates receive, rather than on a client's needs. We address this conflict of interest by disclosing it to you and by requiring that there be a review of your account and transactions at account opening and periodically to determine whether they are suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics.

In some cases, IARs receive more compensation when placing Lincoln Financial Group manufactured products and qualify for additional compensation and benefits based on the volume of those sales over time. IARs also receive additional compensation and other benefits based on factors including sales volume of or total assets in certain Lincoln Financial Group products (including, but not limited to, specific investment advisory programs like WealthLinc and CWA), the length of time that clients keep assets in the products, and the profitability of the products. IARs also receive compensation based on the sales of Lincoln Financial Group products by other financial professionals. Some IARs participate in benefit programs whose costs are partially reimbursed by Lincoln Financial Group affiliates and/or which are based on sales volume of Lincoln Financial Group products. LFS-affiliated companies also benefit financially from the sale of Lincoln Financial Group life insurance, annuity, mutual fund, asset management, and other products offered by IARs. These arrangements present conflicts of interest for LFS and IARs as they create financial incentives for LFS and IARs to recommend products for which they and their affiliates receive the highest rate and amount of compensation and other benefits, rather than other available products for which they and their affiliates receive relatively lower or no compensation and benefits. We address this conflict of interest by disclosing it to you and by requiring that there be a review of your account and transactions at account opening and periodically to determine whether they are suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics. Because of the way products are priced and marketed, in certain circumstances, IARs will receive higher compensation for the sale of products offered by companies not affiliated with Lincoln Financial Group. In these circumstances, IARs have a conflict of interest given their financial incentive to recommend these other products.

Certain IARs who move their practices to LFS receive significant loans from LFS to help facilitate their transition from a prior firm to LFS. These loans are based on a percentage of the revenue earned, compensation received, or assets serviced or managed by the IAR at their prior firm. LFS makes these loans to IARs at interest rates and on other terms that are more favorable than IARs would be able to obtain from other lenders. Depending on the arrangement between LFS and the IAR, the repayment of these loans is fully or partly forgiven or waived by LFS when the IAR reaches specified sales or revenue generation levels or when the IAR has been affiliated with LFS for a specified length of time. With respect to loans that are forgiven or waived by LFS based on sales or revenue generation, certain loans are forgiven or waived by LFS based on the IAR's total sales and revenue generation across all products and services offered through LFS, including both Lincoln Financial Group and non-Lincoln Financial Group products and services, while other loans are forgiven or waived by LFS based solely upon the IAR's accumulation of assets in LFS's WealthLinc and/or CWA investment advisory programs or sale of other proprietary Lincoln Financial Group products and services. In certain circumstances, loan forgiveness and waivers are also funded by additional compensation for sales and revenue generation. These forgivable loan arrangements create conflicts of interest for the IAR because they have an additional financial incentive to remain affiliated with LFS until their outstanding loan balance is forgiven or waived by LFS; encourage clients to engage LFS to provide services and, in particular, those services that result in the forgiveness or waiver of their outstanding loan balance, rather than other available services (*e.g.*, an IAR may recommend that a client select an LFS investment advisory account relationship over a broker-dealer account relationship in order for the IAR to earn additional loan forgiveness based on their accumulation of assets in LFS's WealthLinc and/or CWA investment advisory programs); encourage clients to purchase products and services through LFS and, in particular, those products and services that result in the forgiveness or waiver of their outstanding loan balance, rather than other available products and services; and otherwise achieve specified levels of sales or revenue generation that will result in the forgiveness or waiver of their outstanding loan balance, which has the potential to impact the account-type, product, and service recommendations and selections the IAR makes for you and your account. LFS's current production-based forgivable loan program is governed by controls and policies that are designed to help ensure that the loan amount provided to any IAR is not disproportionate to the IAR's applicable production and compensation amounts earned historically. Additionally, the amount that is forgiven in any one year of the term of the loan is capped, unless an exception is granted. This structure and approach are designed to avoid unduly influencing an IAR to generate disproportionate production or compensation in any given year in an attempt to have large outstanding loan balances forgiven. Please see your IAR's Form ADV, Part 2B for additional information regarding any forgivable loans they have outstanding with LFS.

The conflicts of interest arising from the IAR compensation arrangements described above are addressed by the fact that LFS and its affiliates have designed and implemented reasonable policies and procedures to help ensure that IARs make recommendations, including account-type recommendations, and provide advice that is suitable for and in the best interest of their clients in compliance with applicable best interest requirements and fiduciary obligations. In particular, LFS addresses these conflicts by disclosing them to you and requiring that there be a review of your account and transactions at

account opening and periodically to determine whether they are suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics. In addition, LFS maintains a supervisory system that includes conducting periodic supervisory and compliance inspections and audits related to the advice and recommendations being provided by IARs.

Item 6: Performance-Based Fees and Side-By-Side Management

LFS and the IARs do not charge fees based on a share of capital gains on or capital appreciation of client assets.

Item 7: Types of Clients

LFS generally provides investment advisory services to individuals, high net worth individuals, pension and profit-sharing plans, charitable organizations, corporations and other businesses, and state or municipal government entities.

Requirements for opening and maintaining a TAMP account, such as minimum account size, are summarized above in Item 4, Advisory Business, and are detailed in the applicable TAMP sponsor's or advisory program's Form ADV, Part 2A disclosure brochure, which you receive at or before account opening and is available on the SEC's website at www.adviserinfo.sec.gov.

LFS does not require a minimum account size for financial planning, consultation, subscription, or seminar services, nor does it require financial planning, consultation, subscription, or seminar clients to maintain either a brokerage or advisory account with LFS. However, consulting subscription clients are required to engage LFS for a minimum subscription term of six months.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

THIRD-PARTY ASSET MANAGEMENT PROGRAMS

IARs perform analyses for asset management programs, which are provided to clients. These analyses rely on research reports and information provided by third parties who are contracted to provide such information. IARs consult with their clients to develop an investment strategy for the client. The methods of analysis and investment strategies will vary based upon the individual IAR providing the advice. Where applicable, IARs have the ability to use a holistic approach in managing multiple accounts to a client's objectives and risk tolerance and for tax efficiency. LFS has tools that IARs can utilize in this regard or IARs may use their own expertise in making recommendations to address those concerns.

Each IAR may develop specific investment strategies that may include investing in multiple or single asset classes, model portfolios, or some other distinct investment strategy. Other IARs may take a more customized approach to management of client accounts. Each IAR is primarily responsible for making and implementing recommendations for investment managers, strategies, and in some cases, security selection, for a client account within the investment guidelines of the particular program through which the client invests. The availability of investment strategies and securities and the applicability of investment limitations vary depending on a client's particular IAR.

LFS researches, selects, and periodically reviews the TAMP programs that it offers to clients. In conducting TAMP evaluations and oversight, LFS uses information provided by the TAMP program sponsors and may also use independent, third-party data sources. While LFS periodically reviews the performance and other characteristics of the TAMP programs that it offers, clients should understand that, like any investment strategy, asset allocation, model portfolio, or investment portfolio, the past performance of TAMP programs is no guarantee of the TAMP programs' future performance. Additionally, forecasts of future performance of financial markets or specific TAMP programs may prove to be incorrect for various reasons. Further, clients should understand that while diversification can potentially help spread risk throughout an investment portfolio, diversification alone does not guarantee a profit or protect against a loss. Finally, clients should understand that different asset classes have different risk and potential return profiles and will perform differently in different market conditions. LFS does not independently audit the historical performance published by TAMP sponsors or third-party investment managers. Clients are strongly encouraged to carefully review the TAMP sponsor's or third-party investment manager's disclosures regarding prior performance with their IAR.

For all TAMP programs used by LFS, the specific security analysis methods, sources of information, and investment strategies depend upon and are determined by the applicable TAMP sponsor and related third-party asset managers. For additional information regarding the methods of analysis and investment strategies of particular TAMP sponsors and third-party managers, please refer to the Form ADV, Part 2A for the particular TAMP sponsor or manager, which is available on the SEC's website at www.adviserinfo.sec.gov.

FINANCIAL PLANNING SERVICES

LFS provides its financial planning, consulting, and subscription services using both fundamental and technical approaches to financial planning. The advisory services LFS provides generally will focus on one or more of the following areas: investment planning, risk management, retirement planning, estate planning strategies, education planning, business succession planning, executive compensation planning, entity planning, employee benefits planning, and nonqualified deferred compensation financial planning.

In the financial planning, consulting, and subscription processes, IARs assist clients in identifying their financial objectives using approved questionnaires and software or other methods. As part of this process, clients are responsible for providing LFS and their IAR with financial and other relevant information that is accurate and complete, and any failure to do so will affect the advice and recommendations the IAR prepares for a particular client. In certain cases, IARs will recommend asset allocation strategies made up of different categories of financial assets in order to address specific client-identified economic and other financial concerns. IARs have the latitude to determine how best to develop the advice and recommendations that they present to clients. As a result, the recommendations and advice provided to financial planning, consulting, and subscription clients by different IARs will often vary greatly.

The advice and recommendations that you receive from your IAR in connection with LFS's financial planning, consulting, and subscription services are based on the information you provide to LFS and your IAR. In the financial planning context, your IAR and LFS will only be responsible for updating and correcting the information you provided for your financial plan (e.g., to reflect changes in your life, financial situation, goals, and market or economic conditions) if you engage them to provide a new financial plan or engage them to update the information you previously provided in order to update or correct an existing financial plan before it is finalized. As a result, your financial plan may become outdated or inaccurate as these factors change over time. LFS makes no guarantees regarding the accuracy of the assumptions and calculations made in third-party financial planning software.

It is the client's responsibility to determine if, and how, the advice and recommendations they receive from their IAR in connection with LFS's financial planning, consulting, and subscription services should be implemented or otherwise followed. Clients should carefully consider all relevant factors in making these decisions, and clients are encouraged to consult with their outside professional advisors, including for tax, accounting, and legal advice, before implementation.

LFS's financial planning, consulting, and subscription services include advice and recommendations that are based on, among other things, a client's stated financial situation and objectives, risk tolerance, age, current asset allocation, and value of assets. In certain cases, LFS's and its IARs' advice and recommendations are also based on historical financial data and assumptions about future financial trends (including, but not limited to, market appreciation or decline, rates of return and risks for various asset classes). Historical data is not indicative of future performance and assumptions about future events may not prove to be true or relevant. LFS has no obligation to revise a client's financial plan or otherwise advise the client if any of LFS's assumptions change in the future. Further, there can be no assurance that any advice or recommendations provided by an IAR will be successful in achieving the client's investment goals and objectives.

LFS's financial plans do not provide ongoing advice. Therefore, it is important for clients to monitor current events, such as changes in tax laws and in the financial markets, which may affect clients' financial plans and circumstances. Clients should reconsider their financial planning strategy and decisions from time to time to determine the impact that these events or changes may have on their circumstances.

In the financial planning, consulting, and subscription processes, the IAR does not make recommendations regarding the purchase of specific securities, insurance products, or other investment products. If clients decide to implement their IARs' advice and recommendations through a brokerage or investment advisory account, clients should understand that all

investments involve material risk, that investment performance can never be predicted or guaranteed, and that the value of client accounts will fluctuate due to market conditions and other factors. Clients are assuming the material risks involved with investing in securities and could lose all or a portion of the amount invested and held in their account. In addition, forecasts of future performance of financial markets may prove to be incorrect for various reasons. Clients should understand that while diversification can potentially help spread risk throughout an investment portfolio, diversification alone does not guarantee a profit or protect against a loss. Further, clients should understand that different asset classes have different risk and potential return profiles and will perform differently in different market conditions.

RISK OF LOSS

Investments made and the actions taken for client accounts are subject to various material risks, including market, liquidity, currency, economic, and political risks, among others, and will not necessarily be profitable. In addition, there are material risks associated with the securities and other investment products in which you can invest, including, but not limited to, mutual funds, ETFs, interval funds, options, AIs, and annuities. Additionally, clients that utilize margin loans, SBLs, and SBLOCs are subject to additional material risks, including, but not limited to, the potential for greater losses given the fact that clients must repay their outstanding margin loan, SBL, and SBLOC balances regardless of the underlying value of the securities collateralizing their margin loan, SBL, or SBLOC. Before investing, clients should review the prospectus or other applicable offering documents of the particular securities and investment products they intend to purchase to ensure they understand the material risk factors applicable to those particular securities and investment products and their investments therein. Similarly, clients should carefully review the disclosure documents and client agreements applicable to margin accounts, SBLs, and SBLOCs they intend to use to ensure that they understand the additional, material risk factors applicable to the use of such products. Investing in securities involves risk of loss that clients should be prepared to bear. Clients should understand that all investments involve material risk, that investment performance can never be predicted or guaranteed, and that the value of client accounts will fluctuate due to market conditions and other factors. Clients are assuming the material risks involved with investing in securities and could lose all or a portion of the amount invested and held in their account. The performance of accounts managed by different IARs will often vary greatly. Past performance is not a guarantee of future results.

Item 9: Disciplinary Information

LFS is a registered broker-dealer and investment adviser. This section contains information about certain legal and disciplinary events that LFS believes are material to a client's evaluation of its advisory business or the integrity of its management. LFS and certain of its financial professionals have also been subject to other legal and disciplinary events relating to their brokerage and investment advisory businesses that LFS does not view as material to a client's evaluation of LFS's advisory business or the integrity of its management. Additional information regarding LFS's and its financial professionals' legal and disciplinary histories can be found in Part 1 of LFS's Form ADV, which is available on the SEC's website at www.adviserinfo.sec.gov, and on the Financial Industry Regulatory Authority, Inc.'s ("FINRA") BrokerCheck website at <https://brokercheck.finra.org/>.

On February 9, 2024, LFS entered into a settlement with the SEC in connection with the SEC staff's risk-based initiative to investigate whether registered firms are properly maintaining business-related communications sent or received by their personnel on personal devices ("off-channel communications"). In the settlement, LFS acknowledged that it violated Section 17(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and Rule 17a-4(b)(4) thereunder and Section 204 of the Investment Advisers Act of 1940, as amended (the "Advisers Act"), and Rule 204-2(a)(7) thereunder by failing to maintain records of certain off-channel communications, including text messages, sent and received by LFS personnel and by failing to reasonably supervise LFS personnel's business-related communications from at least January 2019 through the date of the settlement. As part of the settlement, LFS was censured, ordered to cease and desist from committing or causing future violations of Section 17(a) of the Exchange Act and Rule 17a-4 thereunder and Section 204 of the Advisers Act and Rule 204-2 thereunder, and ordered to pay a civil money penalty in the amount of \$8.5 million on a joint and several basis with its affiliate, LFA. Additionally, LFS was ordered to comply with certain undertakings, including an undertaking to engage an independent compliance consultant to conduct a review of LFS's policies and procedures, training, surveillance program, technology solutions, and similar matters related to off-channel communications. LFS cooperated with the SEC staff's investigation and has taken steps to strengthen its compliance environment as it relates to off-channel communications.

On November 14, 2016, FINRA accepted LFS's Letter of Acceptance, Waiver and Consent whereby FINRA found that LFS failed to establish, maintain and enforce a supervisory system, including written supervisory procedures ("WSPs"), reasonably designed to (1) ensure the security of confidential customer information stored on electronic systems at LFS branch offices; and (2) ensure the preservation, retention and review of consolidated reports produced by registered representatives and provided to LFS customers, and failed to retain certain consolidated reports. LFS consented to a censure and monetary fine of \$650,000 and, with respect to Item (1), by June 14, 2017, an officer of LFS was required to certify in writing to FINRA that LFS had (a) completed a review of its WSPs and systems; and (b) implemented necessary revisions to such procedures and systems that are reasonably designed to achieve compliance with Rule 30 of Regulation S-P. To date, LFS is not aware of any misuse of customer information stemming from the unauthorized access of the cloud server. LFS has taken several corrective actions and implemented several enhancements relating to consolidated account statements, including instituting a policy and reporting system to ensure all consolidated customer account statements are retained and reviewed, and adopting a WSP for manually entered assets.

Item 10: Other Financial Industry Activities and Affiliations

In addition to LFS's registration as an investment adviser, LFS is also registered as a broker-dealer and sells stocks, bonds, ETFs, mutual funds, AIs, annuities, insurance products, options, and other securities, investment products, and services. IARs are also generally registered representatives of LFS. Some of LFS's executive officers are also registered representatives of LFS and officers of LNL and LLANY. The proportion of time spent on each of these activities cannot be readily determined.

LFS is affiliated with the following companies due to common ownership by LNC:

- The Lincoln National Life Insurance Company (insurance company);
- Lincoln Life & Annuity Company of New York (insurance company);
- LFA, Limited Liability Company (insurance agency);
- Lincoln Financial Distributors, Inc. (broker-dealer);
- Lincoln Financial Advisors Corporation (broker-dealer, investment adviser, and insurance agency);
- Lincoln Financial Investments Corporation (investment adviser);
- First Penn-Pacific Life Insurance Company (insurance company);
- Lincoln Financial Insurance Agency Incorporated (insurance agency);
- California Fringe Benefit and Insurance Marketing Corporation (insurance agency);
- LFD Insurance Agency, Limited Liability Company (insurance agency);
- Lincoln Financial Group Trust Company, Inc. (trust company);
- Lincoln Investment Management Company (investment adviser); and
- Westfield Assigned Benefits Company (insurance agency).

LFS and IARs have various conflicts of interest and financial incentives that are created as a result of compensation, benefit, and other arrangements between IARs, LFS, and LFS's affiliates. These conflicts of interest and the steps LFS takes to address them are described above in Item 5, Fees and Compensation.

LFS and its IARs periodically recommend or select other investment advisers for clients and LFS and its IARs receive compensation as a result of those recommendations and selections. For example, LFS and its IARs have the ability to recommend that clients participate in the TAMP programs described in this Brochure and will receive a portion of the advisory fees paid by clients participating in those programs. Additionally, LFS and its IARs have the ability to recommend that clients utilize the services of Envestnet Portfolio Solutions, Inc., third-party money managers, and Strategists in connection with the *Lincoln WealthLinc* Alliance Program and the CWA Program and will receive advisory fees as a result of clients' participation in those programs. Further, LFS receives marketing support payments and other benefits from certain TAMP sponsors, Strategists, and other sponsors that LFS and its IARs have the ability to recommend or select for client accounts. This creates a conflict of interest for LFS and the IARs given their financial incentive to recommend or select other investment advisers that cause them to receive the highest rate and amount of compensation, rather than other available investment advisers that cause them to receive relatively lower or no compensation. These conflicts of interest and the steps LFS takes to address them are described above in Item 5, Fees and Compensation. For additional information on LFS's and its IARs' conflicts of interest in connection with the *Lincoln WealthLinc* Alliance Program and the CWA Program, and how LFS addresses them, please see LFS's Forms ADV, Part 2A for those programs, which are available on

our website at www.lfsecurities.com under My accounts—Disclosures or at www.lfg.com/public/individual/adv, and on the SEC’s website at www.adviserinfo.sec.gov.

LFS and your IAR can earn more compensation if you invest through a TAMP program described in this Brochure than if you open a brokerage account to buy individual mutual funds or other securities. However, in a brokerage account, you would not receive all the benefits of the TAMP programs described in this Brochure, such as ongoing investment advice and portfolio management. Additionally, LFS will receive more compensation, and IARs can negotiate higher fees for their services, in connection with a client’s participation in certain investment programs than others. Therefore, IARs and LFS have a conflict of interest given their financial incentive to recommend one of the TAMP programs described in this Brochure, rather than other available programs and services that would result in relatively lower or no compensation to LFS and the IARs. Additionally, LFS and IARs have a conflict of interest given their financial incentive to recommend the specific investment programs for which they can negotiate and receive the highest rate and amount of compensation. The decision to invest in an advisory program is solely that of the client. LFS addresses these conflicts of interest by disclosing them to you, providing you with a full description of the services provided in, and fees applicable to, each advisory program, and by requiring that there be a review of your account and transactions at account opening and periodically to determine whether they are suitable and in your best interest in light of your investment objectives, financial circumstances, and other characteristics.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

CODE OF ETHICS

LFS has adopted an Investment Adviser Code of Ethics (the “Code”) and all IARs and “access persons” (as defined under the Advisers Act) are required to understand and follow its provisions. Through the Code, LFS strives to ensure high standards of professional excellence and ethical conduct among its associates. The Code is aligned with Lincoln Financial Group’s long-standing shared values of: Integrity, Commitment of Excellence, Responsibility, Respect, Fairness, Diversity, and Employee Ownership. LFS will provide a copy of the Code to any client or prospective client upon request. If you would like a copy of the Code, please contact us at (800) 237-3813 or LFNAdvisoryServices@lfg.com.

SECURITIES IN WHICH LFS HAS A FINANCIAL INTEREST

A principal transaction is generally defined as a transaction where an investment adviser, acting as principal for its own account, buys securities from or sells securities to an advisory client. An agency cross transaction is generally defined as a transaction where a person acts as an investment adviser in relation to a transaction in which the investment adviser, or any person controlling, controlled by, or under common control with the investment adviser, acts as broker for both the advisory client and for another person on the other side of the transaction. A cross transaction is generally defined as a transaction where an investment adviser effects a transaction between two or more of its advisory clients’ accounts. In the TAMP programs that LFS makes available to clients, LFS does not engage in principal transactions, agency cross transactions, or cross transactions for advisory client accounts.

LFS and IARs can recommend annuities, model portfolios, and other products that are created, managed, and/or sold by Lincoln Financial Group companies, including, but not limited to, LNL, LLANY, and LFI. For a description of the conflicts of interest to which LFS and its IARs are subject in connection with the recommendation of Lincoln Financial Group products, and how LFS addresses them, please see Item 5, Fees and Compensation, above.

PERSONAL SECURITIES TRADING

LFS, the IARs, and other LFS associated persons have the ability to buy and sell securities identical to those recommended to clients for their personal accounts. Moreover, the IARs can purchase and sell securities and take other actions for their own accounts, and can recommend the purchase and sale of securities and other actions for others’ accounts, that differ from the advice given or actions taken in providing advisory services to you. In addition, any LFS related person may have an interest or position in certain securities which may also be recommended to clients. This creates a conflict of interest in that IARs have a financial incentive to put their own interests ahead of clients’ interests. Personal securities transactions by IARs are recorded and monitored by LFS.

IARs may provide financial plans to clients containing recommendations regarding investment services or product categories that are offered by LFS or its affiliates. IARs will make clients aware that LFS or its affiliates offer products or services contained in a recommended financial plan; however, the decision of whether to implement a recommended financial plan and through which financial firms to implement is solely that of the client. IARs will not base recommendations made in a client's financial plan on the products or services offered through LFS or its affiliates, but instead will base their recommendations on the investment objectives and financial condition of the particular client. Nonetheless, IARs have a financial incentive to recommend products and services that are offered by LFS and its affiliates.

Item 12: Brokerage Practices

The brokerage practices for the advisory services discussed in this Brochure vary depending on the particular program clients select. Because LFS and the IARs do not have the discretion or authority to select broker-dealers or execute transactions for the advisory services and programs discussed in this Brochure, LFS does not have the opportunity to aggregate orders for the purchase or sale of securities for various client accounts.

Although LFS and the IARs may recommend or assist clients in selecting particular advisory programs, neither LFS nor the IARs have the discretion or authority to select broker-dealers for the TAMP programs discussed in this Brochure. The brokerage practices that are applicable to a particular TAMP program are established by the sponsor of that program. In general, the TAMP sponsors and third-party managers have discretion to select brokers through which to execute transactions in client accounts. In many cases, such TAMP sponsors and third-party managers will require that client accounts trade through a particular broker-dealer, and those broker-dealers will frequently be affiliated with the sponsor of the program. In other cases, these TAMP sponsors and third-party managers may permit clients to direct that the manager place all client transactions through a particular broker-dealer of the client's choosing.

By directing brokerage to a particular broker, clients may be unable to achieve the most favorable execution of transactions because the third-party investment manager will not be responsible for negotiating commission rates or selecting broker-dealers. In addition, transactions for the client's advisory account may not be "bunched" or aggregated with orders for other accounts managed by the TAMP sponsor or third-party investment manager. As a result, directed brokerage may result in higher commissions or less favorable net prices that will cost the client more money. In addition, if the cost of brokerage commissions is included in the applicable program fee, clients that direct trades to another broker-dealer typically will incur a separate brokerage charge that is in addition to the program fee. For more information about the brokerage practices of a particular TAMP sponsor or third-party manager or program, clients should refer to the Form ADV, Part 2A for the particular TAMP sponsor or third-party manager or program.

Brokerage arrangements for the solicitor and referral programs discussed above will also vary by program or service. Please refer to the Form ADV, Part 2A or other disclosure and account opening documents for each adviser or manager to whom you are referred for details.

STEP-OUT TRADING

As discussed in Item 5, Fees and Compensation, a TAMP program investment manager that has the discretion to execute "step-out" trades with broker-dealers other than the broker-dealer associated with a client's TAMP program will incur additional transaction, trading, or execution fees that the client will pay as a result of such step-out trades. Additional transaction, trading, and execution fees resulting from step-out trades will increase the client's cost and negatively impact investment performance. However, a step-out trade can potentially allow the investment manager to achieve better price execution.

Some TAMP programs described in this Brochure charge an "all-inclusive" bundled fee based on assets under management. Any all-inclusive bundled or wrap fee amounts charged by the TAMP sponsor or third-party manager cover brokerage execution at no additional charge for trades executed with that TAMP sponsor's or third-party manager's clearing firm. The "all-inclusive" bundled wrap fees do not cover charges resulting from step-out trades effected with broker-dealers that are not associated with that TAMP sponsor's or third-party manager's investment advisory program or wrap fee program. The TAMP sponsors and third-party managers described in this Brochure are generally free to consider their own clearing firm's

trading capability versus other brokers' trading capabilities as part of their own best execution responsibilities and obligations as investment advisers and sponsors to these investment advisory programs.

A step-out trade occurs in some instances when a TAMP sponsor or investment manager purchases equity securities, fixed-income securities, derivatives (*e.g.*, options), thinly traded securities, illiquid securities, ETFs, or other securities from a different broker-dealer or the broker or dealer selling the securities to obtain a more favorable price or because the particular security is not available through the broker-dealer associated with your TAMP program or wrap fee program. In other instances, a step-out trade occurs when the TAMP sponsor or investment manager executes a single trade for multiple clients by aggregating orders into a single "block." A "block" trade can potentially provide the client with a better overall price and/or return because a single order can potentially result in better execution versus placing multiple separate orders. When a TAMP sponsor or investment manager executes a block order, that TAMP sponsor or investment manager is seeking to obtain best execution and best price. Aggregating transactions into a single trade can potentially afford the TAMP sponsor or investment manager more control over the execution of the trade, including potentially avoiding an adverse effect on the price of the security that could result from effecting a series of separate, successive, and/or competing small trades with multiple broker-dealers or clearing firms.

LFS anticipates that most trades in TAMP programs will be placed through the relevant TAMP sponsor's or third-party investment manager's own clearing firm for execution because of their execution capabilities and because the all-inclusive bundled wrap fee charged by the TAMP sponsor or third-party investment manager in certain programs covers trade charges only when trades are executed through their own clearing firm. However, TAMP sponsors and third-party managers from time to time believe they are able to obtain better execution utilizing step-out trades. Additionally, certain TAMP sponsors and third-party managers have historically utilized step-out trades for a significant portion, if not all, of their trades in certain strategies (including, but not limited to, certain fixed-income, options, and ETF strategies) and likely will continue to do so in the future. As a result, clients utilizing these TAMP sponsors' and third-party managers' strategies will incur all additional fees, costs, and expenses resulting from such step-out trades, which will increase their overall cost of participation in the program. Further information regarding the frequency of TAMP sponsors' and third-party advisers' utilization of step-out trades and a general description of the additional costs related to step-out trades can be found on our website at www.lfg.com/public/individual/adv. If you have any questions regarding this information or step-out trading in your account and related costs, please contact your IAR.

BEST EXECUTION

In placing orders for the purchase and sale of securities and directing brokerage to effect these transactions, a TAMP sponsor's or investment manager's primary objective is to obtain the best qualitative execution for clients in each client transaction so that the client's cost per transaction is the optimal combination of price and service considering all relevant factors, including, but not limited to, the type of security, timeliness of execution, efficiency of execution, and other relevant considerations. As such, a TAMP sponsor or investment manager may choose to execute step-out trades as discussed above and in Item 5, Fees and Compensation. Further information regarding the frequency of TAMP sponsors' and third-party investment advisers' utilization of step-out trades and a general description of the additional costs related to step-out trades can be found on our website at www.lfg.com/public/individual/adv. If you have any questions regarding this information or step-out trading in your account and related costs, please contact your IAR.

FINANCIAL PLANNING

As described above, LFS's financial planning services are completed upon the delivery of a recommended financial plan to the client; LFS's point-in-time consulting services are completed upon the completion of a single consultation with the client, and any related follow up; and LFS's consulting subscription services are completed upon the expiration of the term of the client's subscription agreement.

Clients are neither required to implement any of the advice or recommendations they receive from their IAR in connection with LFS's financial planning, consulting, or subscription services, nor required to transact business through LFS should they decide to implement all or any portion of their IAR's advice and recommendations. IARs generally make clients aware that brokerage and investment advisory services are offered by LFS or its affiliates, through which a client can implement the advice and recommendations they receive as part of LFS's financial planning, consulting, or subscription services.

However, the decision as to whether to implement their IAR's advice and recommendations, and which financial firm to use for implementation, is solely that of the client. If a client chooses to implement any or all of their IAR's advice and recommendations through LFS, LFS will be acting solely as a broker-dealer, not as an investment adviser in implementing such advice and recommendations (unless otherwise agreed in writing).

RETIREMENT PLAN SERVICES

LFS and the IARs have no discretion or authority with respect to the selection of broker-dealers for the Retirement Plan Consulting Program. For additional information on LFS's and the IARs' conflicts of interest in connection with their recommendation of a particular advisory program, broker-dealer, or custodian firm, including the compensation arrangements between LFS and other broker-dealers and custodians, please see Item 5, Fees and Compensation, above.

Item 13: Review of Accounts

Accounts in TAMP programs are reviewed by IARs periodically as agreed upon by the IAR and client, as transactions occur, or as requested by the client. IARs usually receive quarterly reports of client accounts. These reports are reviewed periodically by LFS and/or the IAR and are reviewed with the client during annual reviews or as part of other meetings and discussions between the IAR and the client. Clients in TAMP programs receive confirmations from the broker-dealer holding their accounts as activity occurs and/or monthly statements of account activity. The custodians for TAMP programs provide written reports directly to clients at least quarterly.

In the financial planning, consulting, subscription, and seminar processes, the investment advisory services that IARs provide to clients are generally reviewed by the Director of Planning or their designee. In the financial planning context, after the completion of a client's initial financial planning agreement, the client may request, or their IAR may recommend, that the client's financial planning agreement be renewed to update the client's financial plan. In this case, the IAR will gather current financial information and provide a written analysis, which will be reviewed based on the same process. Financial planning clients do not receive periodic or ongoing reports, but instead receive a completed financial plan at the completion of the financial planning process.

When acting in a solicitor capacity, neither LFS nor the IARs are responsible for evaluating, monitoring, or overseeing a TAMP sponsor's or third-party adviser's management of a client account once a referral has been made. In addition, LFS does not provide ongoing monitoring for clients participating in its Retirement Plan Consulting Program.

Item 14: Client Referrals and Other Compensation

For a description of economic benefits received by LFS and IARs from entities who are not clients, LFS's and IARs' conflicts of interest as a result of their receipt of those economic benefits, and how LFS addresses those conflicts of interest, please see Item 5, Fees and Compensation, above.

CLIENT REFERRAL AND SOLICITATION RELATIONSHIPS

Clients are obtained primarily through the efforts of IARs. However, various third parties, including, but not limited to, attorneys, accountants, insurance professionals, registered investment advisers, broker-dealers, and lead-generation firms, refer clients to, and solicit clients on behalf of, LFS and IARs. LFS and IARs pay referral fees to certain of these third parties as compensation for their client referral and solicitation services. The referral fees that LFS and IARs pay to these third parties are typically contingent on referred clients entering into an investment advisory relationship with LFS, and are typically a stated percentage of the financial planning, consulting, seminar, or ongoing advisory fees that the referred client pays to LFS. Advisory fees paid by referred clients are agreed to by the referred client and are fully disclosed in their client service agreement, SIS, and other account-opening documents and disclosures, regardless of any referral fees LFS or IARs pay to the third party. In certain circumstances, LFS and IARs pay for referral and solicitation services through alternative fee arrangements, including through flat fees per client referral, monthly fees for participation in referral programs, or other fee structures that are not contingent on referred clients entering into an investment advisory relationship with LFS.

Third parties that have compensated client referral or solicitation arrangements with LFS and its IARs have a conflict of interest given their financial incentive to refer you to LFS and its IARs and to recommend that you engage LFS and its IARs

for services, rather than other available service providers that pay these third parties relatively lower or no compensation for their client referrals and solicitations. LFS requires third parties that have compensated advisory client referral or solicitation arrangements with LFS or its IARs to provide clients with important compensation, conflict of interest, and other disclosures to ensure that clients are apprised of the nature of their arrangements with LFS or its IARs. Clients should review these disclosures in detail and address any questions they may have with the IAR to whom they are referred before engaging LFS or the IAR to provide any investment advisory or other services.

OTHER COMPENSATION

LFS and IARs receive various economic benefits from third parties, including those detailed in Item 5, Fees and Compensation, above.

If a client needs certain types of products or services that are not offered by or through LFS, LFS and IARs may refer the client to various third parties that offer the necessary products or services. Examples of these products and services include, but are not limited to, business valuation services, foundation formation services, tax services, trustee services, certain wealth management services, lending services, and certain insurance products and services. LFS and IARs receive referral fees from certain of these third parties to whom clients are referred. This presents a conflict of interest for LFS and its IARs given their financial incentive to refer clients to third-party product and service providers that pay LFS and IARs the highest rate and amount of referral fees and other compensation, rather than other available third-party product and service providers that pay LFS and IARs relatively lower or no referral fees or other compensation. LFS addresses these conflicts of interest by disclosing them to you and by ensuring that you retain ultimate decision-making authority regarding which, if any, third-party product and service providers you engage.

Item 15: Custody

LFS generally does not provide custodial services for client assets and all client accounts are required to be held with a qualified custodian. Clients will receive account statements from the broker-dealer or other qualified custodian that holds their accounts, and clients should carefully review these statements. It is important for you to compare the information on these statements with reports you receive from LFS and your IAR, and we urge you to do so. Please note that there may be minor variations in these reports due to calculation methods and other factors. If you have any questions, please contact your IAR.

LFS and the IARs generally do not take possession of client funds or securities. However, in certain asset management programs, clients have authorized LFS to deduct advisory fees from their accounts. While LFS and the IARs do not accept authority to take possession of client assets, this level of account access is considered “custody” under Advisers Act rules.

LFS does not have custody of client funds or securities in connection with its financial planning, consulting, subscription, or seminar services.

Item 16: Investment Discretion

LFS generally provides investment management services on a non-discretionary basis, meaning that LFS obtains client authorization before entering any buy or sell orders in client accounts. As mentioned previously, specific to the TAMP programs described in this Brochure, the TAMP sponsors and/or investment managers themselves will generally have discretionary trading and investment authority over client accounts. The client will usually appoint the TAMP program sponsor and/or the investment manager selected as their attorney-in-fact and delegate discretionary trading authority to that party. That allows the TAMP program sponsor and/or selected manager to buy and sell securities in the client’s account without prior approval from the client for each transaction.

LFS does not accept discretionary authority in connection with its Retirement Plan Consulting Program or financial planning, consulting, subscription, or seminar services.

Item 17: Voting Client Securities

LFS does not accept authority to vote client securities or proxies. Clients will receive their proxies or other solicitations directly from their custodian, unless the client has provided proxy voting authority to a third party, such as an investment manager selected for their TAMP program account. Clients should address any questions regarding a particular solicitation to their IAR.

Item 18: Financial Information

LFS's statement of financial condition for its most recent fiscal year is included with this Brochure.

LFS does not have any financial condition that is reasonably likely to impair its ability to meet its contractual commitments to clients.

Lincoln Financial Securities Corporation
Statement of Financial Condition
(in thousands, except share data)

	As of December 31, 2023
ASSETS

What Do Lincoln Financial Advisors Corporation and Lincoln Financial Securities Corporation Do with Your Personal Information?

Lincoln Financial Advisors Corporation and Lincoln Financial Securities Corporation (both a part of Lincoln Financial Network or LFN) are committed to protecting your privacy. To provide the products and services you expect from a financial services leader, we must collect personal information about you. This Privacy Practices Notice (Notice) describes our current privacy practices. While your relationship with us continues, we will update and send you a copy of this Notice when required by law. Even after your relationship with us ends, we will continue to protect your personal information. You do not need to take any action because of this Notice, but you do have certain rights as described below.

We are committed to the responsible use of your information and protecting your individual privacy rights. As such, we look to leading data protection standards to guide our privacy program. These standards include collecting data through fair and lawful means, such as obtaining your consent when appropriate.

We and other financial companies choose how we share your personal information. Federal and state law gives you the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this Notice carefully to understand how we collect, use, share, and protect your personal information.

Information We May Collect and Use

We collect personal information about you:

- to help us identify you as a consumer, our customer, or our former customer;
- to process your requests and transactions;
- to provide customer service;
- to offer and provide securities, insurance products, and other investment products; financial planning, asset management, and other investment advisory services; and related services to you;
- to process and pay your claims;
- to analyze the information in order to evaluate and enhance our products and services;
- to gain customer insights;
- to provide education and training to our workforce and customers;
- to inform you of products and services that you may find useful; and
- as otherwise permitted by law.

The types of personal information we collect depends on your relationship with us and the products and services you request and may include the following:

- **Information from you:** When you submit your applications and other forms, you give us information such as your name; address; Social Security Number; your financial, health, and employment history; and, if applicable, financial and other information about your business. We may also collect voice recordings and biometric data for use in accordance with applicable law.
- **Information about your transactions:** We keep information about your transactions with us, such as the products you buy from us and the services you engage us to provide; the amount you paid for those products and services; your account balances; your payment details; and your payment history.
- **Information from outside our family of companies:** If you are applying for or purchasing insurance products, we may collect information from consumer reporting agencies, such as your credit history; credit scores; and driving and employment records. With your authorization, we may also collect information, such as medical information, from other individuals and/or businesses.
- **Information from your employer:** If your employer applies for or purchases group products from us, we may obtain information about you from your employer or group representative to enroll you in the plan.

When you are no longer our customer, we continue to share and use your information as described in this Notice.

How We Share Your Personal Information

We may share your personal information within our family of companies and with certain service providers. They may use your information to assist us in:

- processing transactions you, your employer, or your group or other authorized representative have requested;
- providing customer service;
- offering and providing securities, insurance products, and other investment products; financial planning, asset management, and other investment advisory services; and related services to you;
- analyzing the information in order to evaluate and enhance our products and services;
- gaining customer insights;
- providing education and training to our workforce and customers; and
- informing you of products and services that you may find useful.

Our service providers may or may not be affiliated with us. Affiliates are companies related to us by common ownership or control. Nonaffiliates are companies not related to us by common ownership or control. Our service providers include:

- Financial service providers, including third-party administrators; broker-dealers; investment advisers; insurance agents and brokers; financial professionals; reinsurers; and other financial services companies with which we have joint marketing or other arrangements; and
- Non-financial companies and individuals, including consultants; vendors; and companies that perform marketing and other services on our behalf.

Information we obtain from reports prepared by service providers may be kept by the service providers and shared with other persons; however, we require our service providers to protect your personal information and to use or disclose it only for the work they are performing for us, or as permitted by law. We may execute agreements with our service providers that permit the service providers to process your personal information outside of the United States, when not prohibited by our contracts or applicable law.

When you apply for one of our products or services:

- We may share information about your application with credit bureaus;
- We may provide your information to group policy owners or their designees (for example, to your employer for employer-sponsored plans and their authorized service providers);
- We may provide your information to regulatory authorities, law enforcement officials, and to other nonaffiliated and affiliated parties as permitted by law; and
- In the event of a sale of all or part of our businesses, we may share customer information with the acquiror as part of the sale.
- **We do not sell or release your information to outside marketers who may want to offer you their own products and services unless we receive your express consent; nor do we release information we receive about you from a consumer reporting agency.**

We and other financial companies need to share customers’ personal information to run our everyday business. In the section below, we list the reasons we can share your personal information; whether we choose to share your personal information; and whether you can limit this sharing.

Reasons we can share your personal information	Does LFN share?	Can you limit this sharing?
For our everyday business purposes— such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes— to offer our products and services to you	Yes	No
For joint marketing with other financial companies	Yes	No
For our affiliates’ everyday business purposes— information about your transactions and experiences	Yes	No
For our affiliates’ everyday business purposes— information about your creditworthiness	No	We don’t share
For our affiliates to market to you	Yes	Yes
For our nonaffiliates to market to you	Yes	Yes

Federal law gives you the right to limit only:

- **sharing for our affiliates' everyday business purposes—information about your creditworthiness;**
- **sharing for our affiliates to market to you; and**
- **sharing for nonaffiliates to market to you.**

State laws and individual companies may give you additional rights to limit sharing of your information. California residents can review our California Privacy Notice located at <https://www.lincolnfinancial.com/public/general/privacy/californiaprivacynotice>.

How We Secure Your Personal Information

We have an important responsibility to keep your information safe. We use safeguards to protect your information from unauthorized use, access, and disclosure. To protect your personal information from unauthorized use, access, and disclosure, we use security measures that comply with federal and state law. These measures include, but are not limited to, computer safeguards and secured files and buildings. Our employees are authorized to access your information only when they need it to perform their job responsibilities. Employees who have access to your personal information are required to keep it confidential. Employees are also required to complete privacy training annually.

Your Rights Regarding Your Personal Information

This Notice describes how you can exercise your rights regarding your personal information. We comply with all applicable laws and regulations governing the clients' rights with respect to their personal information. We will administer the rights described in this Notice in accordance with your state's specific laws and regulations.

Your state may provide for additional privacy protections under applicable laws. We will protect your information in accordance with these additional protections.

If you would like to exercise your rights regarding your personal information, please provide your full name, address, and telephone number and either email your inquiry to our Data Subject Access Request Team at DSAR@lfg.com or mail your inquiry to: Lincoln Financial Group, Attn: Corporate Privacy Office, 1301 S. Harrison St., Fort Wayne, IN 46802. **The DSAR@lfg.com email address should only be used for inquiries related to this Privacy Notice.**

For general account service requests or inquiries unrelated to this Privacy Notice please call 1-877-ASK-LINC.

Access to Your Personal Information: You may submit a written request to receive a copy of your personal information. You may review your personal information in person, or you may ask us to send you a copy of your personal information by mail or electronically, whichever you prefer. We will need to verify your identity before we can process your request. Within 30 business days of receiving your request, we will, depending on the specific request you make, (1) inform you of the nature and substance of the recorded personal information we have about you; (2) permit you to obtain a copy of your personal information; and (3) provide the identity (if recorded) of the persons to whom we have disclosed your personal information within two years prior to the request (If this information is not recorded, we will provide you with the names of those insurance institutions, agents, insurance support organizations, and other persons to whom such information is normally disclosed). If you request a copy of your information by mail, we may charge you a fee for copying and mailing costs.

Changes to Your Personal Information: If you believe that your personal information is inaccurate or incomplete, you may ask us to correct, amend, or delete the information. Your request must be made in writing and must include the reason you are requesting the change. We will respond within 30 business days from the date we receive your request.

If we make changes to your personal information as a result of your request, we will notify you in writing and will send the updated information, at your request, to any person who may have received your personal information within the past two years. We will also send the updated information to any insurance support organization that gave us the information and any insurance support organization that systematically received personal information from us within the prior seven years, unless that insurance support organization no longer maintains your personal information.

If we deny your request to correct, amend, or delete your information, we will provide you with the reasons for the denial. You may write to us and concisely describe what you believe our records should say and why you disagree with our denial of your request to correct, amend, or delete your information. We will file this communication from you with the disputed information, identify the disputed information if it is disclosed, and provide notice of the disagreement to the recipients and in the manner described in the paragraph above.

Basis for Adverse Underwriting Decision: You may ask in writing for the specific reasons for an adverse underwriting decision. An adverse underwriting decision is where we decline your application for insurance, offer to insure you at a higher than standard rate, or terminate your coverage.

When Your Financial Professional Leaves LFN: We understand that the relationship you have with your financial professional is important to you. If your financial professional's affiliation with LFN ends and they choose to move to a different financial

institution, or if your financial professional's relationship with LFN is terminated, your LFN financial professional may be allowed to take with them copies of all client and account documentation (including, but not limited to, account applications; account statements; and other pertinent forms and information related to you and your accounts), so your financial professional is able to continue their relationship with you and service you through their new firm. LFN will also retain copies of your client and account documentation. You do not need to take any action if you choose to allow your LFN financial professional to keep copies of your confidential information should they leave LFN.

If you do not want your financial professional to keep copies of your confidential information should their affiliation with LFN end, you have the right to opt out*. If your account with us is a joint account, we will treat an opt-out request by any joint account owner as applying to all joint owners on the account. If you choose to opt out now, or at any time in the future, or wish to withdraw your opt-out request, please contact us by phone at 1-800-248-2285. If you choose to opt out, there will be a 30-day period before your opt out will take effect.

*Lincoln adheres to all applicable state and federal privacy regulations. Residents of Arizona, California, Connecticut, Georgia, Maine, Massachusetts, Minnesota, Montana, Nevada, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Oregon, Vermont, and Virginia will be provided an opportunity to opt in for information sharing per applicable state law. If you reside in one of these states, written authorization must be provided to your financial professional in order for them to take your information when they leave LFN.

The information in this Notice applies to the following companies:

Lincoln Financial Advisors Corporation,
Lincoln Financial Securities Corporation,
Lincoln Financial Insurance Agency, Inc., and
LFA, Limited Liability Company.
